---

WHEREAS: Many students on our campus are struggling financially. Similarly, finances fall as the top or second reason students leave our university. Many of our students also have the stress of getting settled in Cedar City and finding a job at the same time. We do currently have a place designated for student employment but it is not utilized to its full extent. Our Career Center is a wonderful resource for students on campus to get jobs, but many students do not utilize the Career Center. They are trying to find ways to help students find the opportunities that this digital job board would advertise.

THEREFORE, LET IT BE RESOLVED: The Southern Utah University Student Association will provide the funding for the installation of two digital signage televisions in the Student Center for the purpose of advertising available jobs. The total cost of the digital signage boards will total no more than \$4,100. Each signage board requires the following: a computer, TV, mount, frame, electrical and internet access. The breakdown of the costs for the digital job boards is as follows for both job boards:

- Computers - \$959.38
- TVs and Mount - \$1,876.54
- Electrical - \$500.00
- Internet - \$440.00
- Creation of frames and installation - no cost

The total cost will come to \$3,557.92 with another \$542.08 included as a cushion in the case that unforeseen costs arise.

LET IT BE FURTHER RESOLVED: The current student employment board will stay in its current location by the direction of Vice President Tippetts and Assistant Vice President Kirby.

LET IT BE FURTHER RESOLVED: The Career Center will manage these digital job boards. The Career Center will post new jobs, internships, and career opportunities weekly or as they come in. Even with these digital job boards it will not be possible to advertise all the available opportunities for students. The digital job boards will also include QR codes where students can go to Handshake and see all available jobs.
