

Dear Friends,

SUU is a remarkable place. From its heroic founding over one hundred years ago through its growth and maturity that have brought us forward, you will find an outstanding environment for learning and personal development. The faculty and staff of the university are committed to an uncommon level of excellence and personalized service. Academic programs are of high quality and provide outstanding preparatory opportunities for lives and careers. A splendid array of extracurricular activities brings exciting chances for personal involvement and leadership development.

Southern Utah University is a regional university providing baccalaureate, applied technology and selected graduate education. As noted in our guiding document, “Our mission is to provide students a personalized learning environment to foster meaningful experiences involving the mind, heart and hands...” The beautiful SUU campus with its breathtaking scenery, facilities and grounds provides a marvelous setting for a quality educational experience.

In addition to our highly skilled faculty and staff, top leaders, educators and experts frequently come to SUU to share their expertise with our students and campus community. Students flourish in this dynamic environment. We invite you to further consider the benefits of an SUU educational experience. The school’s initial faculty was given the charge, “Let this institution always be a sanctuary for the honoring of thought in all its finest forms.” SUU personnel remain committed to this charge. We are anxious to serve students well and we invite your inquiries.

Most sincerely,

*Steven D. Bennion, President  
Southern Utah University*
