DEPARTMENT STATEMENT

It is the mission of the history and sociology department to encourage a life-long passion for learning and a quest for knowledge by providing an environment that fosters academic excellence and unfettered inquiry. We encourage the development of ethics and values that recognize knowledge in all its diverse and creative forms. The primary goal of our department is to offer excellence in instruction while meeting the academic needs of the students. Our mission is to foster a creative learning environment and assist students through meaningful and relevant experiences to:

1. Promote respect for the diversity of all people as the core of social thought.
2. Guide students in developing analytical, communication, and information-gathering skills.
3. Encourage students to be tolerant, informed, and responsible citizens.
4. Offer opportunities for practical experience through internships, work studies, and memberships in honorary societies in history, sociology and anthropology.
5. Contribute to the cultural, historical, political and social development of southern Utah and the surrounding region.

Anthropology

Anthropology is the study of human behavior, culture, and biology throughout time and space. Anthropology provides students with global information and thinking skills critical to success in the 21st Century in careers as diverse as public health, cultural resource management, international law and business, social research, community and environmental advocacy, and teaching.

History Mission Statement

The history program supports the general education program and is committed to preparing undergraduate students to understand their historical and cultural heritage. Further, in cooperation with the College of Education, the department prepares students for teaching careers in elementary and secondary schools, and it works to qualify majors for graduate study and advanced administrative specialization.

Social Science Composite Mission Statement

Southern Utah University offers a composite degree in social sciences for those who are seeking licensure in secondary education and choose this option. The advantage of the composite is in securing a teaching license in several areas of the social sciences.

Sociology Mission Statement

The sociology program prepares students for life in a diverse society by introducing them to applied and conceptual tools that aid in a more thorough understanding of social structure, social processes, group values, attitudes and beliefs. Sociology supports the general education requirements, integrates service-learning in several courses, and prepares students for graduate degree programs in addition to careers in teaching, social work, and a variety of administrative and research occupations.
