

Department of Physical Science

Interim Department Chair: Paul Larson
Science 309 ~ (435) 865-8244

Administrative Assistant: Rhonda Riley
Science 309 ~ (435) 586-7900

Academic Advisors:

Deborah Franklin (A-K), Aaron Reynolds (L-Z)
Science 304~ (435) 865-8703
franklin@suu.edu
reynoldsa@suu.edu

Faculty: *Professors:* Terry D. Alger, Robert Eves, J. Ty Redd;
Associate Professors: Paul Larson, Hussein Samha, Brent Sorensen, Kim Weaver; *Assistant Professors:* James Chisholm, Mark Colberg, Laura Cotts (NTT), Bruce Howard, Eric Roberts, Mackay Steffensen, Renwu Zhang; *Professional Staff:* Kristina Bronsema, David Maxwell

DEGREES OFFERED

Bachelor of Arts/Bachelor of Science

Physical Science, Teacher Education Emphasis

Bachelor of Science

Chemistry, Professional Emphasis
Chemistry, Health Care Emphasis
Chemistry, Forensic Emphasis
Chemistry, Teacher Education Emphasis
Geology, Earth Science Emphasis
Geology, Professional Emphasis

Minor

Chemistry
Chemistry Teacher Education
Geography
Geography Teacher Education
Geology Teacher Education
Physics
Physics Teacher Education

Certificate

Geographic Information System

Bachelor of Interdisciplinary Studies,

A customized degree based on either two or three areas of student interest. (See page 101 and the advisor or dean of the College of Science for more information.) Recent examples include combinations of coursework in GIS, Computer Science, Geology, Geography, Sociology, Political Science, Biology, Business, CAD/CAM, Information Technology, and Marketing.

SPECIAL LEARNING ENVIRONMENTS

Southern Utah University Water Laboratory

The SUU Water Laboratory is a student staffed laboratory accredited by the state of Utah under the National Environmental Laboratory Accreditation Program (NELAB). Serving southern Utah since 1972, this laboratory provides SUU students with an

interest in chemistry a hands-on, chemical laboratory experience. The laboratory also provides students with employment opportunities.

The SUU Water Laboratory serves the tri-state area (Arizona, Nevada and Utah) by providing a local source of chemical and bacteriological analysis of water and waste water.

The Southern Utah University Ashcroft Observatory

The SUU Ashcroft Observatory offers college credit courses and weekly community astronomical viewing activities located near the SUU Valley Farm.

CHEMISTRY

Website: <http://www.suu.edu/sci/physci/chemistry/>

Chemistry, a central science, is an active discipline vital to human existence and essential to the understanding of biological, medical, industrial, economic, and environmental issues.

The Southern Utah University chemistry faculty are committed to instilling an understanding of chemistry and its relevance through quality teaching, scholarly activities, and service. In a world that is becoming increasingly more technical and complex, providing chemical instruction with the depth, breadth, and rigor required to meet this need is of primary importance.

As chemistry faculty, we strive to provide students with quality, current, comprehensive, courses of study which serve the following needs including:

1. Preparation of students who choose to pursue graduate degrees in chemistry.
2. Preparation of students who choose to pursue degrees in the health sciences (medicine, dentistry, pharmacy, etc.)
3. Preparation of students who choose to gain employment in a science related field with an undergraduate degree.
4. Preparation of students who choose to become chemical educators.
5. Education of students to think critically and independently.
6. Helping students improve communicative, creative, analytic, and information gathering skills.

To accomplish these goals, the chemistry faculty will provide the following:

1. Honest evaluations of student abilities and potential.
2. A climate of mutual trust and respect among faculty, staff and students.
3. The application and involvement of basic scientific principles and methodologies.
4. Competitive opportunities for mentorship through undergraduate research, employment, and other hands-on educational means.

Admission to Chemistry Program

The objective of requiring admission to the chemistry program is to ensure preparedness for upper-division chemistry courses. A secondary purpose is to facilitate tracking and advising of students.

The requirements for attaining admission to the chemistry programs are as follows:

1. To be considered for admission to SUU's chemistry program students must have:
 - a. A cumulative GPA of at least 2.5.

- b. Completed the following, or its equivalent; with a grade of "C" (2.0) or better:
 - i. Chemical Principles series with laboratory (CHEM 1210, 1215, 1220, 1225)
 - ii. Calculus Series (MATH 1210, 1220).
2. No pre-chemistry students may enroll in courses with numbers greater than 2999 without formally declaring themselves chemistry majors.
 - a. The College of Science advisor will ensure that this requirement has been met.
 - b. Non-chemistry majors or minors may take upper division chemistry courses only with permission of the instructors.

GEOSCIENCES

Website: <http://www.suu.edu/sci/physci/geosciences/>

GEOGRAPHY & GEOGRAPHIC INFORMATION SYSTEMS (GIS)

Geography is traditionally divided into three areas, and all three are offered in the SUU geography curriculum. These include (1) physical geography, an examination of earth's physical systems; (2) human or cultural geography, which explores spatial relationships in human activities; and (3) technical or applied geography, including the technologies of geographic research, which encompasses cartography, GIS, GPS, and related technologies.

The mission of the SUU geography program is:

1. To continue and expand the relationship between the departments of Physical Science and History and Sociology and to support the programs and degrees offered by these departments.
2. To discover, describe, explain, and interpret the character of the earth as home to humans by focusing on interrelationships within and among natural and cultural subsystems and regions.
3. To contribute to the liberal education offered by the university, to provide excellence in teaching, and to offer students the best in geography education that can be obtained at any institution of higher learning.
4. To offer specialized training in applied geography, including GIS and cartography.

Geography Minors:

SUU offers two geography minors. The academic geography minor can be used either to fulfill graduation requirements or to prepare the student for graduate school. The geography education minor, will qualify the student for certification to teach geography in Utah's secondary schools.

GIS Program:

Our GIS courses and laboratory serve many departments, degrees, and affiliated entities across the SUU campus and surrounding communities. The GIS courses and laboratory teach spatial technologies through hands-on experience. The GIS program and laboratory use the most current technology, hardware, and software available. The GIS lab offers service learning opportunities to students through local and regional projects and internships.

The mission of the GIS program is to prepare individuals to integrate spatial technologies with studies in other disciplines. We provide a learning environment that fosters undergraduate

research. The strength of our mission relies on the program's diversity and the interdisciplinary nature of spatial technologies.

A Bachelor of Interdisciplinary Studies degree (see page 101) can be designed to accommodate students interested in GIS. Examples of programs that often use GIS include, but are not limited to; geography, biology, geology, history, sociology, political science, business, marketing, engineering, agriculture, information systems, computer science, criminology, university studies, education, and others. Coursework in GIS complements other degrees.

Geographic Information Systems Certificate Requirements

The GIS certificate program was designed as an integrated component of a 4-year degree (for example Geography, Geology, Biology, Information Systems, Computer Science, Engineering Technology or other). The GIS certificate can be completed as an individual program, usually over a 2 - 3 year period. The foundation courses should be completed in the freshmen year, the technical GIS courses in the sophomore year and the GIS application courses in the junior and senior years.

GEOLOGY

The geology area strives to provide students at Southern Utah University with excellence in earth science education. Our integrated efforts are directed toward those methods we feel produce the best possible educational experience. The primary goal of the geology faculty is to ensure academic excellence while demanding integrity and building self-esteem in our students. Specifically, our mission is to foster a positive learning environment which serves a variety of needs including:

1. Preparation of students who choose to pursue graduate studies in geology;
2. Preparation of students to directly enter the work force;
3. Preparation of students who choose to pursue careers in areas other than science (i.e. business or law), but need a broadly based background in geology as a foundation for those pursuits;
4. Preparation of students who choose a career in earth science education; and
5. Preparation of students choosing physical science general education courses to be more knowledgeable citizens by providing a quality educational experience. The geology area carries out its role through application of, and involvement with, the basic principles of science and by instilling understanding and appreciation of scientific methodologies.

Admission to Geology Program

The objective of requiring admission to the Geology Program is to ensure preparedness for upper-division geology courses. A secondary purpose is to facilitate tracking and advising of majors. The requirements for attaining advanced standing in geology are as follows:

1. Achieve a cumulative GPA of at least 2.0 (a grade less than "C" (2.0 or above) will not be accepted in the major or minor).
2. Complete each of the following or its equivalent:
 - a) Physical Geology (GEO 1110) and Physical Geology Lab (GEO 1115); Principles of Chemistry I (CHEM 1210) and Principles of Chemistry I Lab (CHEM 1215); College Algebra (MATH 1050); and Trigonometry (MATH 1060).

3. No pre-geology students may enroll in courses with numbers greater than 2999 without formally declaring themselves geology majors.
 - a) The College of Science advisor will ensure that this requirement has been met.
 - b) Non-geology majors or minors may take upper division geology courses only with permission of the instructors.

PHYSICS

Website: <http://www.suu.edu/sci/physci/physics/>

The mission of the physics faculty is to ensure academic excellence while demanding integrity and building self-esteem in our students. Our mission is met through the following:

The Learning Environment - to provide students with quality, current, comprehensive, rigorous courses of study; to prepare successful pupils by stimulating curiosity and instilling a lifelong love of learning; and to develop within the students communication skills and creative, analytic information gathering and processing skills.

The Faculty - to develop excellence in teaching by fostering the pedagogical development of our faculty, to maintain strong professional commitment and development, and to promote excellence within the faculty through involvement in scholarly activities, developments in our respective fields, and service to the university and the communities of southern Utah.

DEGREE REQUIREMENTS

Physical Science Composite Teacher Education Emphasis Bachelor of Arts/Bachelor of Science	
Course Number and Title	Credits
General Education Core (see Chapter 14)	
Core Course Requirements (must take MATH 1210**)	18
Knowledge Areas Requirements (must take CHEM 1210 and CHEM 1215)	19
University Requirements	
BA Degree – Foreign Language/ASL requirement (16 hours or proficiency test)	
BS Degree – Math or Science minimum requirement (12 hours)	
Required courses (65 hours):	
CHEM 1220 Principles of Chemistry II	4
CHEM 1225 Principles of Chemistry II Lab	1
CHEM 2010 Chemical Laboratory Safety*	1
CHEM 2310 Organic Chemistry I	4
CHEM 2315 Organic Chemistry I Lab	1
CHEM 2320 Organic Chemistry II	4
CHEM 2325 Organic Chemistry II Lab	1
CHEM 3000 Quantitative Analysis	3
CHEM 3700 Environmental Chemistry	3
GEOG 3220 Weather & Climate *	3
GEOG 3225 Weather & Climate Lab*	1
GEO 1110 Physical Geology	3
GEO 1115 Physical Geology Lab	1

GEO 1220 Historical Geology	3
GEO 1225 Historical Geology Lab	1
GEO 3210 Mineralogy	3
GEO 3215 Mineralogy Lab	1
MATH 1220 Calculus II	4
PHYS 1040 Elementary Astronomy	3
PHYS 1045 Elementary Astronomy Lab	1
PHYS 2210 Physics for Scientists & Engineers I	4
PHYS 2215 Physics for Scientists & Engineers I Lab	1
PHYS 2220 Physics for Scientists & Engineers II	4
PHYS 2225 Physics for Scientists & Engineers II Lab	1
PHYS 3310 Quantum Physics I	3
PSCI 4900 Teaching Science in Secondary Schools	2

Plus four (4) credit hours from the following list:	
GEO 3010 Environmental Geology* (3)	4
GEO 3015 Environmental Geology Laboratory* (1)	
GEO 3110 Paleontology* (3)	
GEO 3115 Paleontology Laboratory* (1)	
GEO 3170 Oceanography* (3)	
GEO 3175 Oceanography Laboratory* (1)	
GEO 3410 Sedimentology/Stratigraphy* (3)	
GEO 3415 Sedimentology/Stratigraphy Lab* (1)	
GEO 3510 Structural Geology* (3)	
GEO 3515 Structural Geology Laboratory* (1)	
GEO 4000 Selected Field Trips (two hour max) (.5-3)	
GEO 4070 Applied Geochemistry* (3)	

Comments:

- 1) This is a composite degree, a minor is not required.
- 2) Courses in computer science are strongly recommended additional electives
- 3) Secondary Teaching Certification requires specific professional education courses, (see below) consult the department of teacher education for additional advisement.
- 4) This degree does not include the requisite number of upper division hours. Students completing this degree will fill the upper division requirements while completing course work for the Secondary Teaching Certificate.
- 5) Bachelor of Arts degree must meet language requirements as outlined in "Degree Requirements" on page 101 of this catalog.
- 6) Credits greater than 10 years old will not be accepted for this degree.

Other Electives	
Free Electives (see comments above)	18
Total Credits, B.A. or B.S. degree	120

* Courses are taught every other year. Consult your advisor.
 ** If you are not prepared for this math course, please see advisor for alternate recommendations.

Secondary Education Licensure
Please see page 178 for the degree requirements for Secondary Education Licensure. Some classes required for the licensure cannot be taken until the teacher candidate has been admitted to the Teacher Education Department. Please consult your advisor or the Teacher Education Department for further instruction.

Chemistry Composite Professional Emphasis Bachelor of Science	
Course Number and Title	Credits
General Education Core (see Chapter 14)	
Core Course Requirements (must take MATH 1210**)	18
Knowledge Areas Requirements	19
University Requirements	
BS Degree – Math or Science minimum requirement (12 hours)	
Chemistry Requirements - Professional Emphasis (70 hours)	
Recommended for students who wish to receive professional career preparation. This degree emphasis follows the guidelines set forth by the American Chemical Society.	
CHEM 1210 Principles of Chemistry I	4
CHEM 1215 Principles of Chemistry I Lab	1
CHEM 1220 Principles of Chemistry II	4
CHEM 1225 Principles of Chemistry II Lab	1
CHEM 2310 Organic Chemistry I	4
CHEM 2315 Organic Chemistry I Lab	1
CHEM 2320 Organic Chemistry II	4
CHEM 2325 Organic Chemistry II Lab	1
CHEM 3000 Quantitative Analysis	3
CHEM 3160 Inorganic Chemistry *	3
CHEM 3610 Physical Chemistry I	3

CHEM 3620 Physical Chemistry II	3
CHEM 3625 Physical Chemistry II Lab	1
CHEM 4160 Advanced Inorganic Chemistry *	3
CHEM 4165 Advanced Inorganic Chemistry Lab *	1
CHEM 4230 Instrumental Analysis *	3
CHEM 4240 Analysis Lab	2
CHEM 4250 Synthesis Lab *	2
CHEM 4990 Chemical Literature/Seminar	1
MATH 1220 Calculus II	4
MATH 2210 Calculus III	4
MATH 2270 Linear Algebra with Applications	3
MATH 2280 Differential Equations	3
PHYS 2210 Physics for Scientists & Engineers I	4
PHYS 2215 Physics for Scientists & Engineers I Lab	1
PHYS 2220 Physics for Scientists & Engineers II	4
PHYS 2225 Physics for Scientists & Engineers II Lab	1
Free Electives (13 hours must be upper division)	13
Total Credits, B.S. degree	120
Physics for Scientists & Engineers Recitation; PHYS 2230 & PHYS 2260 are optional but recommended.	

Comments: (1) A grade of "C" (2.0 or above) must be earned in each course required for the major and minor. (2) Knowledge of computer science is strongly recommended. (3) All Chemistry Majors must successfully complete an exit exam before graduation. (4) This is a composite degree, a minor is not required. (5) This degree does not include the requisite number of upper division hours. Students completing this degree will fill the upper division requirement with elective credit. (6) Credits greater than 10 years old will not be accepted for this degree.

* Courses are taught every other year. Consult your advisor.

** If you are not prepared for this math course, please see advisor for alternate recommendations.

Chemistry Composite Health Care Emphasis Bachelor of Science	
Course Number and Title	Credits
General Education Core (see Chapter 14)	
Core Course Requirements (must take MATH 1210**)	18
Knowledge Areas Requirements (must take BIOL 1610/1615 and CHEM 1210/1215)	20
University Requirements	
BS Degree – Math or Science minimum requirement (12 hours)	
Chemistry Requirements - Health Care	
Recommended for students who seek diversified preparation for admission to medical, dental, or veterinary school.	
Support Courses Option 2 (8 hours)	
BIOL 1620 General Biology II	3
BIOL 1625 General Biology II Lab	1
BIOL 3060 Genetics	3
BIOL 3065 Genetics Lab	1
Required Courses (50 hours):	
CHEM 1220 Principles of Chemistry II	4
CHEM 1225 Principles of Chemistry II Lab	1
CHEM 2310 Organic Chemistry I	4
CHEM 2315 Organic Chemistry I Lab	1
CHEM 2320 Organic Chemistry II	4
CHEM 2325 Organic Chemistry II Lab	1
CHEM 3000 Quantitative Analysis	3
CHEM 3160 Intermediate Inorganic *	3
CHEM 3610 Physical Chemistry I	3
CHEM 3615 Physical Chemistry I Lab	1
CHEM 4110 Biochemistry I	4
CHEM 4120 Biochemistry II	4
CHEM 4240 Analysis Laboratory	2
CHEM 4990 Chemical Literature/Seminar	1
MATH 1220 Calculus II	4
PHYS 2010 College Physics I **	4
PHYS 2015 College Physics I Lab **	1
PHYS 2020 College Physics II **	4
PHYS 2025 College Physics II Lab **	1

Students must choose either option 1 or option 2 below.	
Option 1 (8 hours)	
CHEM 3620 Physical Chemistry II	3
CHEM 3625 Physical Chemistry II Lab	1
CHEM 4160 Advanced Inorganic Chemistry *	3
CHEM 4165 Advanced Inorganic Chemistry Lab *	1
Option 2 (7 hours)	
BIOL 3310 Cell and Molecular Biology	3
BIOL 3315 Cell and Molecular Biology Lab	1
CHEM 4540 Selected Topics (Health Care)	3
Option 1: Free Electives (11 upper division)	24
Option 2: Free Electives (8 upper division)	17
Total Credits, B.S. degree (option 1 or 2)	120
PHYS 2030 and PHYS 2060 are optional but recommended. The Physics for Scientists and Engineers sequence is recommended for continued graduate level studies. PHYS 2210, 2215, 2220 and 2225 may be completed in place of the College Physics sequence.	
Comments: (1) A grade of "C" (2.0 or above) must be earned in each course required for the major and minor. (2) Knowledge of computer science is strongly recommended. (3) All Chemistry Majors must successfully complete an exit exam before graduation. (4) This is a composite degree, a minor is not required. (5) This degree does not include the requisite numbers of upper division hours. Students completing this degree will fill the upper division requirement with elective credit. 6) Credits greater than 10 years old will not be accepted for this degree.	

* Courses are taught every other year. Consult your advisor.

** If you are not prepared for this math course, please see advisor for alternate recommendations.

Chemistry Composite Forensic Emphasis Bachelor of Science	
Course Number and Title	Credits

PSCI 4900 Teaching Science in the Secondary School	2
Required Minor (21 hours)	
This degree requires a teaching minor in one of the physical sciences (geography teacher education, geology teacher education, or physics teacher education) OR mathematics (mathematics minor emphasis in education).	
Total Credits, B.S. degree	120
Comments: (1) Chemistry-teacher education emphasis students are required to complete a teaching minor in one of the physical sciences or mathematics. This will increase their marketability when they enter the teaching profession. (2) A grade of "C" (2.0 or above) must be earned in each course required for the major and minor. (3) This major requires the student to complete the course work for the Secondary Teaching Certificate. (see below) Consult the department of teacher education. (4) This degree does not include the requisite number of upper division credit hours. Students completing this degree will fill the upper division requirement with their minor requirements or their Secondary Teaching Certificate coursework. (5) All Chemistry Majors must successfully complete an exit exam before graduation. Majors must consult with their advisor concerning their program schedule for the chemistry-education emphasis. (6) Credits greater than 10 years old will not be accepted for this degree.	

* Courses are taught every other year. Consult your advisor.

** If you are not prepared for this math course, please see advisor for alternate recommendations.

Secondary Education Licensure
Please see page 178 for the degree requirements for Secondary Education Licensure. Some classes required for the licensure cannot be taken until the teacher candidate has been admitted to the Teacher Education Department. Please consult your advisor or the Teacher Education Department for further instruction.

PHYS 2210 Physics for Scientists & Engineers I	4
PHYS 2215 Physics for Scientists & Engineers I Lab	1
PHYS 2220 Physics for Scientists & Engineers II	4
PHYS 2225 Physics for Scientists & Engineers II Lab	1
Free Electives	4
Total Credits, B.S. degree	120
<i>Comments: 1) Credits greater than 10 years old will not be accepted for this degree.</i>	

* Courses are taught every other year. Consult your advisor.

**If you are not prepared for this math course, please see your advisor for alternate recommendations.

Geography Minor	
Course Number and Title	Credits
Required Courses (15 hours):	
GEOG 1000 Physical Geography*	3
GEOG 1005 Physical Geography Lab*	1
GEOG 1300 World Regional Geography	3
GEOG 3220 Weather & Climate*	3
GEOG 3225 Weather & Climate Lab*	1
GEOG 3500 Introduction to Cartography*	3
GEOG 3505 Introduction to Cartography Lab*	1
Electives: (select 5 hours)	
Choose 5 credits from the following:	
GEOG 1400 Human Geography* (3)	5
GEOG 2900 GPS Theory, Techniques & Methods (2)	
GEOG 3110 The Earth from Space: Intro to Remote Sensing (3)	
GEOG 3115 The Earth from Space: Intro to Remote Sensing Lab (1)	
GEOG 3300 World Political Geography* (3)	
GEOG 3350 Geomorphology* (3)	
GEOG 3355 Geomorphology Lab* (1)	
GEOG 3400 Environmental Geography* (3)	

GEOG 3550 Principles of GIS (3)	
GEOG 3555 Principles of GIS Lab (2)	
GEOG 3600 Geography of Utah (3)	
GEOG 3620 Geography of North America* (3)	
GEOG 4150 Advanced GIS Analysis Methods Lab (3)	
GEOG 4500 GIS Research Project (3)	
AGSC 3560 Soils (3)	
AGSC 3570 Soils Lab (1)	
Total Credits	20
Comments: Credits greater than 10 years old will not be accepted for this minor.	

* Courses are taught every other year. Consult your advisor.

Geography Teacher Education Minor	
Course Number and Title	Credits
Required Courses (12 hours):	
GEOG 1000 Physical Geography*	3
GEOG 1005 Physical Geography Lab*	1
GEOG 1300 World Regional Geography	3
GEOG 3600 Geography of Utah	3
GEOG 4900 Teaching Methods in Geography*	2
Electives (select 8 hours):	
GEOG 1400 Human Geography*	3
GEOG 3110 The Earth from Space: Intro to Remote Sensing	3
GEOG 3115 The Earth from Space: Intro to Remote Sensing Lab	1
GEOG 3220 Weather & Climate*	3
GEOG 3225 Weather & Climate Lab*	1
GEOG 3300 World Political Geography*	3
GEOG 3350 Geomorphology*	2
GEOG 3355 Geomorphology Lab*	1
GEOG 3400 Environmental Geography*	3
GEOG 3500 Introduction to Cartography*	3
GEOG 3505 Introduction to Cartography Lab*	1
GEOG 3550 Principles of GIS	3
GEOG 3555 Principles of GIS Lab	2
GEOG 3620 Geography of North America*	3
AGSC 3560 Soils	3
AGSC 3570 Soils Lab	1
Total Credits	20
Comments: Credits greater than 10 years old will not be accepted for this minor.	

* Courses are taught every other year. Consult your advisor.

Geology Teacher Education Minor	
Course Number and Title	Credits
Required Courses (16 hours):	
GEO 1110 Physical Geology	3
GEO 1115 Physical Geology Lab	1
GEO 1220 Historical Geology	3
GEO 1225 Historical Geology Lab	1
GEO 1500 Hand Sample Rock Identification	2

GEO 3210 Mineralogy	3
GEO 3215 Mineralogy Lab	1
PSCI 4900 Teaching Science in Secondary Schools	2
Electives (select 4 hours)	
Choose 4 credits from the following:	
GEO 3010 Environmental Geology* (3)	
GEO 3015 Environmental Geology Lab* (1)	
GEO 3110 Paleontology* (3)	
GEO 3115 Paleontology Lab* (1)	
GEO 3170 Oceanography* (3)	
GEO 3175 Oceanography Lab* (1)	
GEO 3410 Sedimentology & Stratigraphy* (3)	
GEO 3415 Sedimentology & Stratigraphy Lab* (1)	
GEO 3510 Structural Geology* (3)	
GEO 3515 Structural Geology Lab* (1)	
GEO 4000 Selected Field Trips (1)	
GEO 4070 Applied Geochemistry* (3)	
Total Credits	4
Comments: Credits greater than 10 years old will not be accepted for this minor.	
Total Credits	20

* Courses are taught every other year or as needed. Consult your advisor.

Physics Minor	
Course Number and Title	Credits
Required (22 hours)	
PHYS 2210 Physics for Scientists & Engineers I	4
PHYS 2215 Physics for Scientists & Engineers I Lab	1
PHYS 2230 Physics for Scientists & Engineers I Recitation	1
PHYS 2220 Physics for Scientists & Engineers II	4
PHYS 2225 Physics for Scientists & Engineers II Lab	1
PHYS 2260 Physics for Scientists & Engineers II Recitation	1
PHYS 3310 Quantum Physics I*	3
PHYS 3320 Quantum Physics II*	3
ENGR 2270 Electro-Mechanical Systems	3
ENGR 2275 electro-Mechanical Systems Lab	1
Total Credits	22
Comments: Credits greater than 10 years old will not be accepted for this minor.	

*Courses are taught every other year or as needed. Consult your advisor.

Physics Teacher Education Minor	
Course Number and Title	Credits
Required (12 hours)	
PHYS 2210 Physics for Scientists & Engineers I	4
PHYS 2215 Physics for Scientists & Engineers I Lab	1
PHYS 2230 Physics for Scientists & Engineers I Recitation	1
PHYS 2220 Physics for Scientists & Engineers II	4
PHYS 2225 Physics for Scientists & Engineers II Lab	1
PHYS 2260 Physics for Scientists & Engineers II Recitation	1

Plus(10 hours):	
PHYS 3310 Quantum Physics I*	3
PHYS 3320 Quantum Physics II*	3
ENGR 2270 Electro-Mechanical Systems	3
ENGR 2275 Electro-Mechanical Systems Lab	1
If a teaching license is to be awarded, PSCI 4900 is also required.	
Total Credits	22
Comments: Credits greater than 10 years old will not be accepted for this minor.	

*Courses are taught every other year or as needed. Consult your advisor.

Geographic Information Systems Certificate	
Course Number and Title	Credits
Required Foundation Courses (13 hours)	
The following courses must be completed or signature approval	
MATH 1040 Statistics (can be taken as General Education)	4
CSIS 1000 Intro to Computer Applications and the Internet (can be taken as General Education)	3
CSIS 1400 Fundamentals of Programming	3
CSIS 3200 Database Design and Management	3
GIS Certificate Requirements (17 hours)	
GEOG 2900 GPS Theory, Techniques & Methods	2
GEOG 3500 Intro to Cartography*	3
GEOG 3505 Intro to Cartography Lab*	1
GEOG 3550 Principles of GIS	3
GEOG 3555 Principles of GIS Lab	2
GEOG 4150 Advance GIS Analysis Methods Lab	3
GEOG 4500 GIS Research Project (Capstone)	3
Electives (3 Hours)	
Choose 3 credits from the following:	
GEOG 3990 Undergraduate Research in Geography/GIS	3
GEOG 4890 GIS Internship	
GEOG 4920 Workshop*	
CSIS 1410 Object Oriented Programming	
GEOG 3110 The Earth from Space : Intro to Remote Sensing	3
GEOG 3115 The Earth from Space: Intro to Remote Sensing Lab	1
Total Credits	33
<i>Comments: (1) A grade of "C" (2.0 or above) or better must be earned in each course required for the certificate. (2) Early advisement is recommended. (3) Credits greater than 10 years old will not be accepted for this certificate.</i>	

* Courses are taught every other year or as needed. Consult your advisor.
