

Construction Management Emphasis in Electronics Engineering Technology 2008-09 Assessment Plan

Expanded Statement of Institutional Purpose	Program Intended Educational	Means of Program Assessment and Criteria for	Summary of Data Collected	Use of Results
<p>Mission Statement:</p> <p>Southern Utah University is a comprehensive, regional institution offering graduate, baccalaureate, associate, and technical programs. SUU is committed to providing an excellent education through a diverse, dynamic and personalized learning environment. The university educates students to be critical thinkers, effective communicators, lifelong learners and individuals who demonstrate integrity and empathy as they pursue their lives' ambitions. The Mission of the CM program is to support and realize with excellence the overall mission and vision of the University and to provide a broadly based, cross disciplinary education founded upon a design-oriented curriculum that integrates several disciplines into a whole.</p>	<ol style="list-style-type: none"> 1. Fundamental skills in Construction Management, Estimating, Scheduling, project supervision, Electrical systems, Drafting and Design, and the appropriate use of building components 2. The ability to become independent life-long learners capable of studying and comprehending new concepts 3. Efficient and effective written and verbal communication skills 4. Teamwork and group projects 	<ol style="list-style-type: none"> 1. Meet annually with an industry advisory committee and discuss with them what we are teaching in the program and accept their input for any changes that they see need to be made. 2. CM faculty are in contact with most CM graduates and they keep us informed as to how their education at SUU has prepared them for their careers and what changes they feel we should make. This is often done through e-mails and visits to their places of employment. 3. The CM faculty are involved in on-going professional development in areas that are being taught in the program. 4. Graduate employment rates have been at 100%. Placement information is based on e-mails from graduates. 5. Regular attendance and participation in Education and energy environmental efficiencies and Industry related conferences
