

Meetings will be every Friday at 11am in the Outdoor Rec. Center located in the Sharwan Smith Student Center.

Newly Elected Officers: Hannah Wunderli- Secretary and Tiana Thurgood- Treasurer.

Discussion Topic: What we would like to see happen this semester and beyond?

1. Informative presentations/activities for students and faculty on campus to get people educated and excited about reducing, reusing, and recycling. Perhaps starting with recycling and building towards reducing/reusing as the semester progresses and people start to change their habits.
2. Reach out to Sharwan Smith personnel about putting recycling bins in the rotunda. And more bins in the Centrum?
3. Reach out to University Housing personnel about doing a training for RAs and on-campus residents about how to recycle properly and why it's important not to treat recycling bins like trash cans.
4. Community outreach: for example, recycle at all Cedar elementary schools. Have a contest. School with most recyclables wins a prize.
5. Join forces with Clean the Canyons to help clean up the great outdoors.
6. Adopt-A-Highway and recruit 100 incoming freshmen to fulfill their service requirement (August 2010).
7. One or several Round Robin exchanges (yard sales) throughout the semester. Perhaps located in the Living Room? Encourage the campus community to bring items (non-perishable or factory-sealed if perishable) they are eager to get rid of by exchanging them for other people's items. Trade instead of sale... reduce & reuse.
8. Environmental Movie Nights: partner up with SUUSA.
9. Earth Day (in April)
10. Recycled Graduation Gowns
11. Set up car-pooling program
12. Fun activities
13. SUU Farmer's Market
