Sec. 02 10-11:50
Sec. 03 2:30-4:20

Course Description:

The purpose of this laboratory is to give you some hands-on learning of the concepts that discussed in lecture. It is intended for the lecture and lab to reinforce one another. Every effort will be made to match up topics in laboratory with when they are presented in lecture; however, this is not always possible.

Text:

- Human Anatomy & Physiology, 6th ed., by Elaine N. Marieb
- Laboratory exercises placed on the class WebCT site

Attendance:

Labs provide practical, hands on learning of not only information, but also techniques. There is no way to make up for the lost experience. Plus, all labs count for points which you can't get if you're not there. **You may not turn in the lab assignment if you did not attend that lab.**

Grading:

The lab grade will be separate from the lecture grade.

Each lab exercise is with 10 points.

There will be a 10 point quiz each week covering information from the previous week.

Quizzes cannot be made up.

The grading scale is as follows: (no curve)

100-97% = A+, 96-93% = A, 92-90% = A-
89-87% = B+, 86-83% = B, 82-80% = B-
79-77% = C+, 76-73% = C, 72-70% = C-
69-67% = D+, 66-63% = D, 62-60% = D-
59% and below = F

Laboratory Setting
