ENGINEERING & TECHNOLOGY BUILDING

History

The Engineering & Technology Building had its final inspection March 14, 1976. The crime lab was established in 1991 as part of the Technology Building.

Fun Facts

- The Crime Lab is the only one in Southern Utah, and one of only three in the state.
- The original ROTC was aligned with the US Airforce in 1949 and continued until SUU changed from a two year school to a four year school [not a university]. It came back in the late 1990's aligned with the Utah National Guard.

Inside The Engineering & Technology Building

- The Engineering & Technology Department
- The College of Computing, Integrated Engineering & Technology Offices
- One of only three Crime Labs in the state of Utah
- Facilities for masonry classes
- Computer Aided Drafting [CAD] labs
- Computer Aided Machining [CAM] lab
- A computer lab
- The ROTC offices are located on the bottom level
