Also the committee questioned whether it is within their purview to deny a proposal based on the consideration of it being the most appropriate use of resources. HSS Rep. Carl Franklin will notify the College Curriculum Committee that all SOC upper division classes had the blanket statement that they would have the prerequisite of 1010 or 1020. Now that they are sending forth multiple proposals for upper division SOC classes they need to understand the blanket statement will not be automatically added. Each future

				proposal must come forth with the desired prerequisites in writing.

Same concern as SOC 3030, to notify their College Curriculum Committee that since this does not fall under their previous blanket statement that all upper division SOC classes have a prerequisite of SOC have the 1010 or 1020, that the statement will not stay in effect. Each future proposal must come forth with the desired prerequisites outlined.
