ENGL 1000	Intro to Academic Writing Workshop	1	Deletion	Approved	
ENGL 2900	Methods of Teaching Writing	3	Course sequencing changed to Fall/Spring	Approved	
SPAN 4510	Intro to Spanish Translation	3	Prerequisites changed to SPAN 3210	Approved	
SOC 4890/5890	Sociological Internship	3	Prerequisites changed to SOC 1010 or SOC 1020; SOC 3030	Approved	
SOC 4999	Senior Capstone	3	Prerequisites changed to SOC 3030 or SOC 3450	Approved	

PVA

Prefix	Course Title	Credits	Change Requested	Action	Notes
ART 4900	Art for Secondary Teachers	5	Prerequisites changed to ART 1110 & ART 1130 ; Course Sequencing changed to Spring even years	Approved	

SCI

Prefix	Course Title	Credits	Change	Action	Notes
---------------	---------------------	----------------	---------------	---------------	--------------

			Requested		
BIOL 2060	General Microbiology	3	Prerequisites changed to BIOL 1610	Approved	
BIOL 4310	Biotechnology	3	Course Sequencing changed to Fall even years	Approved	
BIOL 4315	Biotechnology Lab	3	Course Sequencing changed to Fall even years	Approved	
NURS 3260	Health Promotion & Education	3	Course Sequencing changed to Fall, Spring	Approved	
NURS 4361	RN Nursing Theory & Research	4	Course Sequencing changed to Summer	Approved	

UNI

Prefix	Course Title	Credits	Change Requested	Action	Notes
UNIV 4010	Contemporary Issues	3	Cross-list with HONR 4010; Prerequisites changed to HONR 2010 & ENGL 2010; Course Description updated	Tabled. Proposal to re-submitted as a Substantive item (new course), and voted on electronically.	These are not cross-listed. This is actually a new course proposal. Need to be substantive with all the backup paperwork.
UNIV 4020	Interdisciplinary Seminar	3	Cross-list with HONR 4020; Prerequisites changed to HONR 4010; Course Description updated	Tabled. Proposal to re-submitted as a Substantive item (new course), and voted on electronically.	These are not cross-listed. This is actually a new course proposal. Need to be substantive with all the backup paperwork. This is designed to be independent study.

SUBSTANTIVE ITEMS

BUS

Prefix	Course Title	Credits	Change Requested	Action	Notes
HRHM 3510	Hospitality Managerial Finance	3	New Course	Approved, pending clarification on resources, better learning outcomes, and changing prerequisite to MATH 1030 or higher.	Prerequisite changed to MATH 1030 or higher because 1030 is the bare minimum, and many students take higher math, not 1030.

EDU

Prefix	Course Title	Credits	Change Requested	Action	Notes
	Family Services Emphasis		Degree Requirements	Approved, with new table.	Degree table doesn't reflect 120 credits. Needs to be consistent with other tables. Also needs to change PSY 2200.

HSS

Prefix	Course Title	Credits	Change Requested	Action	Notes
PHIL 3200	Deductive Logic	3	New Course	Tabled for the rest of the paperwork. When the rest of the paperwork arrives it will be voted on electronically so that it can make it to the Board of Regents for approval for the 2011-2012 school year.	Also needs an implementation date.
PHIL 3700	Political Philosophy	3	New Course	Tabled for the rest of the paperwork. When the rest of the paperwork arrives it will be voted on electronically so that it can make	Upper division but has no prerequisite?

				it to the Board of Regents for approval for the 2011-2012 school year.	
PHIL 4010	Senior Seminar	3	New Course	Tabled for the rest of the paperwork. When the rest of the paperwork arrives it will be voted on electronically so that it can make it to the Board of Regents for approval for the 2011-2012 school year.	Only has one prerequisite. One would think that you would want other PHIL courses before the capstone, but there are none listed as prerequisites.
	Philosophy Major		New Major/ Degree Requirements	Tabled, pending further discussion through the college curriculum committee. Get a revised proposal by the end of December and we will post on ELearning. The committee will then vote on it electronically.	<p>Les Jones: there are some concerns within the college.</p> <p>Bill OK with tabling it now if we can agree to look at it (virtually) at the beginning of the second semester, so that it can be in the pipeline for Fall.</p> <p>Most members of the c. committee are in favor of the major but they are concerned with only one faculty member at the moment.</p> <p>Eric Brown: the document itself needs to be cleaned up a lot.</p> <p>Jim Brandt: where did the enrollment</p>

					<p>projections come from? If Weber is closing their program and they are larger than us, expecting 25 is “optimistic”.</p> <p>Institutional readiness section: doesn't really answer the question, but just raises more questions.</p> <p>Pg. 13 identifies SUU as Designated Liberal Arts College, then later identifies it as a Comprehensive Regional University.</p>
SPAN 3400	Intro to Spanish Linguistics	3	New Course	Approved.	

PVA

Prefix	Course Title	Credits	Change Requested	Action	Notes
	BFA in Studio Arts (Painting Drawing Printmaking)		Degree Requirements	Approved	

SCI

Prefix	Course Title	Credits	Change Requested	Action	Notes
BIOL 3150	Experimental Design in Biology	2	New Course	Voted to send it back to the college. All were in favor of sending it back, with the exception of one abstention (Paul Pilletteri)	Paul Pilletteri: Bottom line is that it add 2 hours to the Biology faculty work load. We are already 24 hours down (lots of adjunct hours and overload hours). It is a course for

					<p>Biology majors who want to do research. Part of the strategic plan is for us to be doing more research.</p> <p>Jim Brandt: Math department opposed because so much of it covers statistics, which is Math 1040. Just make 1040 a prerequisite.</p> <p>Paul Pilletteri: the problem is that they want the students to take this class as early as possible. We are looking at our labs to make them more inquiry based. The problem this addresses is that we are getting students to the 3-4000 level classes and they don't have the tools to do the research. It isn't a lower level course because the department wants it to count towards the major.</p> <p>Jim Brandt: there is no Biology prerequisite. Wouldn't you want a student to have taken a biology class before they do research?</p>
--	--	--	--	--	--

					Jim Brandt's suggestion: get rid of the course, require MATH 1040 and the Scientific writing class. We should add onto those courses that are already in place before we start creating new course.
BIOL 3350	Immunology	3	New Course	Approved	

UNI

Prefix	Course Title	Credits	Change Requested	Action	Notes
	BIS Degree		Degree Requirements	Approved	Tweaking the existing saves us the process of going through the R401 process.

Discussion Items

- Christian Reiner is going to try to schedule time with the committee to try to get everyone together on what makes good learning outcomes, so that the information can then be passed down to the various departments.
