

UNDERGRADUATE CURRICULUM COMMITTEE MEETING

February 5, 2015
3:00 pm, AD 304H
MINUTES

Present: John Allred, David Berri, Jim Brandt, Brian Ludlow, David Lund, Paula Mitchell, James Sage, Kelly Stephens, Andrea Stiefvater, Brian Swanson, Karl Stevens, and Bonny Rayburn.

Not Present: Bailey Bowthorpe, Jeb Branin.

CONSENT ITEMS

BUS

Prefix	Course Title	Credits	Change Requested	Implementation Date	Notes/Action
ACCT 3400	Auditing I		Change Course # to: ACCT 4400 Prerequisites: Advanced standing and declared School of Business accounting major, accounting minor, and ACCT 3010, Financial Accounting I. General Education Course: No	Fall 2015	Approved
ACCT 4200	Tax Research & Advanced Topics		Prerequisites: Advanced standing and declared School of Business accounting major, accounting minor, and ACCT 3200, Tax I. General Education Course: No	Fall 2015	Approved
PILT 2240	FW Commercial Pilot Certification Lab	2	Course Sequencing: Fall Annually, Spring Annually & Summer Annually Course Description	Fall 2015	Approved

COSE

Degree/Program	Change Requested		Notes/Action
Agricultural Science and Industry, B.I.S.	The proposed change is an adjustment to the course requirements for the Plant Science and Industries Emphasis within the Agriculture Science and Industry BIS degree. This change is replacing the RANG 4400/4405 course with the RANG 3600/3605 course. This will allow students to use two RANG courses that do not have any prerequisite requirements. All of the courses included in the proposed changes are current courses, so no new faculty or other resources are required. The proposed changes are shown on the following page.	Fall 2015	Approved
Computer Science Composite BS	Add newly approved CSIS 3300 course as an elective into Computer Science BS degrees	Fall 2015	Approved
Computer Science Minor (Non-Teaching)	Update "Note" section of our degrees so they all use the same wording. "Credits older than 10 years must be approved by the CSIS Department Chair before being allowed to count towards the degree due to the rapid change in the industry."	Fall 2015	Approved
Computer Science Teacher Education Emphasis Minor	Update "Note" section of our degrees so they all use the same wording (Please see above)	Fall 2015	Approved
Exercise Science	These changes are necessary because there were undetected errors in the initial degree changes made during the summer of 2014. The number	Fall 2015	Get rid of "summary" Approved

	of credit hours for the degree and core requirements need to be updated and courses need to be placed in appropriate categories. Changes do not require additional resources.		
Information Technology All Emphases	When looking through our degree we came across several things that we wanted to correct and clarify. We also noticed an Art course that would better serve our students than the one they are currently taking. Also, when meeting with the WMG COSE Curriculum Committee regarding the CS Composite BS Degree, we discussed how to best word the Note section for clarity, brevity, and consistency among all types of students. We would like this degree to reflect that same wording.	Fall 2015	Approved
Information Systems Composite B.S.	When reviewing our IS degrees, we noticed the CSIS 2010 course is required in our A.A.S. degree and our IS minor, but not in the major. We believe that it is important for our IS major students as well, and we would like to add it to our major. This would best fit into the degree in the IS Core required area of the degree. We also agreed that we should move the ACCT 2020 course into the Business Electives section to accommodate this course. We then decided to increase the Elective Credits to make moving the course easier on other departments, and still allow our students to get the breadth of courses currently available to them. When meeting with the WMG COSE Curriculum Committee regarding the CS Composite BS Degree, we discussed how to best word the Note section for clarity, brevity, and consistency among all types of students. We would like this degree to reflect that same wording. In another proposal, we are removing Art 3230	Fall 2015	Hidden hours in degree??? CSIS 1010 Approved

	<p>from our 2 year degree and replacing it with Art 3250 Web Design I as we thought that course better prepares IS students in the 2 year degree. As Art 3250 is already in our IS Electives, the Art 3230 Graphic Design I course is no longer needed for A.A.S. students who choose to complete a 4 year degree. The Art 3230 course was in the electives of our 4 year degree to help streamline students completing our 2 year A.A.S. degree, so this change should not prevent students from completing their associates and then their major in a 2 year plus two year time frame. In addition, we would also like to add our two new mobile apps courses CSIS3300 and CSIS4300 to our IS Major Electives.</p>		
Information Systems Minor (Non Teaching)	<p>Over the past several years we have not seen as much interest in our minor degree from students as we would have expected. We compared our minors to other minors in the state, and found that our minor did not offer students as much flexibility as other minors and also required more credits than other courses. When meeting with the WMG COSE Curriculum Committee regarding the CS Composite BS Degree, we discussed how to best word the Note section for clarity, brevity, and consistency among all types of students. We would like this degree to reflect that same wording.</p>	Fall 2015	Approved
Outdoor Recreation in Parks & Tourism	<p>The ORPT program is implementing five new courses, a 1-credit lab, and increasing the credits for two of its Level II skills courses. We will no longer require students to take NR 1010, so it will be dropped from the catalog. ORPT 3030 will replace the previous NR 1010 requirement. All ORPT students will also be required to take two ORPT classes: ORPT 2040 and ORPT 3060.</p>	Fall 2015	Approved

	In addition to the new courses students in each emphasis area will now need to take a technical writing class (COMM 4240).		
Physical Education – Teaching/Coaching	These changes are necessary because there were undetected errors in the initial degree changes made during the summer of 2014. The number of credit hours for the degree and core requirements need to be updated and courses need to be placed in appropriate categories. Changes do not require additional resources.	Fall 2015	Strike the list of secondary education courses and add "For secondary education licensure information, follow the link to secondary education" Get rid of "summary" Approved
Physics Teacher Education Minor	From the Physics Minor, we are removing all recitation credits (i.e. PHYS 2230, 2260). These courses have become obsolete across the Physics curriculum in general. They are optional for all Physical Science and Integrated Engineering majors. They are currently required courses in the Physics Minor and the Physics Teacher Education Minor. Removing these courses that are severely under enrolled, releases needed workload hours for Physics faculty. This will allow us to still maintain quality programs and minors, as well as reducing our overload and needs for physical facilities.	Fall 2015	Approved

HSS

Degree/Program	Change Requested		Notes/Action
Communication-Strategic Comm. Emphasis, B.A., B.S.	Would like to make COMM 4350: Communication Theory, which is a class about human communication principles, another option for degree requirement in addition to COMM4050: Mass Media Theory & Effects for students in the Strategic Communication Emphasis, pursuing the Communication B.A. and B.S. There is no additional resource necessary for this change since we already teach the class as part of our regular load.	Fall 2015	Approved
English Education Endorsement	Change requirements for the minor (re-submit from 2013)	Fall 2015	Approved
French Teaching B.A., French B.A., French minor	We propose three major changes. 1. We would like to allow students who take second year French courses to apply those 8 credits towards the French Teaching B.A. or French B.A. We would also like to allow students who take French 2020 to apply those 4 credits towards the French minor. Under the current system, students who know no French have to take 4 semesters of the language before they begin the major or minor. We hope this change will encourage more students to major or minor in French by allowing them to count their second year courses. These second year courses are already offered on an annual basis, so this change should require no additional resources. 2. We would like to limit the number of credits of internship (FREN 4893) students can apply toward the French Teaching B.A. or French B.A. to three. We would like to limit the number of	Fall 2015	<u>Not approved.</u> Limits??? Transfer credits??? Doesn't make sense. 2010 & 2020 Will have conversation with Elise. Hopefully changes can be made and we can come up with a consensus from committee members via e-mail.

	credits of internship (FREN 4893) students can apply toward the French minor to one. Learning outcomes for the major and minor include proficiency and exposure to and knowledge of culture and literature; limiting the number of internship credits provides sufficient time to target the learning outcomes. 3. We would like to limit the number of courses a student can transfer for the major (three upper division courses) and minor (two upper division courses). This would leave students taking approximately two-thirds of the courses for the major or minor at SUU.		
Spanish Teaching B.A., Spanish B.A., Spanish Minor	Would like to limit the number of transfer credits allowed toward the major (three upper division courses) and minor (two upper division courses). This would leave students taking approximately two-thirds of the courses for the major or minor at SUU.	Fall 2015	<u>Not approved.</u> Limits??? Transfer credits??? Will have conversation with Elise and Jim. Hopefully changes can be made and we can come up with a consensus from committee members via e-mail.

BFA Graphic Design	<ul style="list-style-type: none"> • Move CSIS 2000 from a program requirement to a recommended elective • Move Jr/Sr Design Studio to a program requirement Additionally other curriculum proposals submitted will affect the program as follows; <ul style="list-style-type: none"> • ART 4220 will be named Drawing for Designers • ART 4320 will be a new Letterpress class under portfolio development options The number of required credits under Graphic Design will remain at 36	Fall 2015	Where does CSIS 2000 go??? Approved

Theatre Arts Minor Program	The changes within the Theatre Arts Minor are intended to remove hidden pre-requisite courses within the minor as well as provide some student choice. The current minor does not appear aligned to program goals as the courses present within it do not follow a logical progression of skills and require certain courses that have additional requirements outside the minor. The hope is that with these changes students interested in the minor will find it more appealing. These changes include: 1) Removal of Directing, Stage Management and Professional Aspects of Theatre from the degree table. 2) Addition of Theatrical Design I to the current requirements 3) In place of the Professional Aspect of Theatre course create the choice for Theatre History: The Classic Theatre to be Theatre History: Realism, Post Realistic, & Contemporary Theatre 4) Offer the students a choice of a three credit elective which can be drawn from any of the THEA prefix courses this allows students the choice to take another class in an area of interest within the department.	Fall 2015	Approved

SCPS

Degree/Program	Change Requested		Notes/Action
General Studies BA/BS	Some General Studies majors have encountered difficulty with the rotation of UNIV 4010 and 4020. Unlike BIS majors, GS majors often declare their major change during their senior year, with the hope that the GS major will allow them to graduate on time as opposed to the extended timeline they would face changing to an alternate major. Depending on when they change their major, they might have to wait until	Summer 2015	Approved

	the following fall to take UNIV 4010 and then the subsequent spring for 4020, potentially delaying graduation a full year. Establishing SGCS 4010 and SGCS 4020 as the two core courses for GS majors will help them avoid unnecessary delays. SGCS 4010 and 4020 will be offered concurrently in both fall and spring (and possibly summer), allowing GS students to take both courses in an upcoming semester, to facilitate earlier graduation.
