How to Use the Benefit Information Tab

**Step 1** Go to [www.MyVRx.com](http://www.MyVRx.com) and login using your earlier registered username and password.

**Step 2** Once logged in you will be directed to the home screen where 4 colored boxes with multiple options are available. This tutorial is for the **Benefit Information** box.
**Step 3**  
This box has all your benefit information including a search function to look up covered medications, medications you’ve filled and what pharmacies you can go to and more. Click on the **Visit Now** button.

![Benefit Information](image)

**Step 4**  
When you click this link you will pull up the index screen. The options are:  
- Copay  
- Drug Pricing  
- Prescription Claim History  
- Condition Information  
- Drug Information  
- Pharmacy Search  
- Drugs with Specific Requirements  

From this screen there are several options to choose from on the right. Each option will open in a new tab so you should always be able to get back to this index page.

**Step 5**  
If you click on the **Copay** link your basic copay structure will be shown.
Step 6

Click on the Drug Pricing button in order to search drug coverage and what estimated price you can expect. This is approximate and not an exact price. You need to choose your drug name by clicking the Find Drug button, enter your drug name hit Search, then choose your drug from the options available.

Then choose a pharmacy by clicking the Find Pharmacy button. You can also choose the option for mail service.

Once you have chosen your drug and pharmacy you need to choose the quantity and day supply your doctor will/has prescribed.
Step 7
If you click on the Prescription Claim History you can pull up all the medications you’ve filled. Enter a date range to view.

![Pharmaceutical Claim Summary]

Step 8
If you click on the Condition Information you can search for different conditions and commonly used medications associated with the condition.

![Condition Information - Attention-Deficit Hyperactivity Disorder]

Step 9
If you click the Drug Information you can search for different drugs and see more information about the drug and what other medications can interact with it.

![Drug Search]
Step 10

If you click on the **Pharmacy Search** button, you can find pharmacies within the network. You can either search for a specific pharmacy name or any pharmacy within your area. If you do not enter a pharmacy name, it will list multiple pharmacies in your area.

Once you have chosen the pharmacy you want, if you click on the purple car to get directions to the pharmacy.

You can also enter your current location.
This field shows you what type of specific requirements a medication may have before it will be covered by your insurance.

Just click on the Special Requirement next to the drug you would like to view.

For Prior Authorizations it will bring up a PDF copy of the Prior Authorization form your physician will need to fill out and send into VRx.
For Step Therapy it will bring up what other medications will need to be tried and for how long before the requested medication will be covered.
