

## Important Benefit Information Do Not Discard

June 2014

We are pleased to announce Southern Utah University has selected VRx to manage the pharmacy benefit services offered by your plan. This will take effect July 1, 2014.

### You need to know this key information:

- Your pharmacy benefits and copays are changing slightly. Please refer to the SUU Benefit Plan for these changes. Also, the formulary – or list of preferred drugs – is not the same with VRx as your previous vendor. If you are not sure how your medication will be covered, call a VRx Benefit Advocate at (877) 879-9722.
- You will receive a new ID card in the mail from EMI Health that will include your VRx prescription information. It should arrive prior to the change on July 1, 2014. Watch your mail for this card.
- Mail order prescriptions filled at your current mail order pharmacy will not be transferred. To use your 90-day benefit, you may use a participating 90-day retail pharmacy – like Bulloch's Drug and Wal-Mart - or the mail order pharmacy, WellDyneRx. To learn more about mail order visit the mail service page on our website at [www.myvrx.com](http://www.myvrx.com) or call VRx at (877) 879-9722.
- If you are using a specialty medication, please call VRx (877) 879-9722 for information about filling your prescription.

### What you need to do:

- Watch the mail for your new ID card. If you do not receive your card by July 1<sup>st</sup> please call VRx to obtain the information your pharmacy will need to process your prescriptions before your new card arrives.
- The first time that you fill a prescription after July 1, 2014, **you must provide your new ID card to your pharmacy.** The ID card has essential information, like RxBIN (610245) and RxPCN (05780000) that your pharmacy must have to bill your prescriptions to your insurance.
- If you believe you are using a medication that requires prior authorization or is a specialty medication call a VRx Benefit Advocate for assistance.

### Who can you call with questions?

You may call a VRx Benefit Advocate at (877) 879-9722 with any questions you have about your pharmacy benefit. We are open Monday through Friday between 7:00 am and 7:00 pm Mountain Standard Time.

We look forward to serving you,

VRx Pharmacy Services
