

SUU Staff working on planting new flowers – Bryce Caine, Information Technology (shown left); Jennifer Burt, President's Office and Donna Eddleman, Student Services, shown above.

Camaree Staheli, President's Office; Mindy Benson, Alumni; Annette Murray, Controller's Office; and Bruce Tebbs, Provost Office plant flowers.

Since 1996, SUU Staff have planted flowers each spring in the Centennial Parterre. This year marks the 14th year of the event.

Various staff members plant below and discuss the various plants with Ross Murdock, Grounds Horticulturist. Many hands make light work!

Prior to each year's planting, a semi-annual meeting is held with breakfast. SUU staff show off their T-bird red as Bruce Tebbs, 08-09 Staff Association President, conducts business.

Glen Pryor, Associate VP for Information Technology (left), showed just how t-bird red one can be – outfit complete with red socks and red-rimmed sunglasses!

Kirk Blake and David Smailes, Welcome Center (above), prove that even wearing shirts & ties, planting can be just as fun and not nearly as messy – GO TBIRDS!
