Scholarship opportunity!

\$20,000 Rotor Wing Aviation Scholarship- Deadline November 30, 2020

This scholarship is available for current Instrument lab students who will be moving into their Commercial training (lab 2276) in Spring 2021. Scholarship recipients are chosen by the SUU Aviation Scholarship Review Committee. All applicants will be notified of acceptance/rejection via email. Scholarships will be paid directly to the student's SUU account and applied to the appropriate semester charges. Applications are submitted at <https://www.suu.edu/financial/aviationscholarship.html>. Please direct questions to romanickjocelyn@suu.edu.

Maintenance Team

Thank you, T-birds, for helping us take care of our fantastic fleet of aircraft! We have a very packed semester and there is a lot to do. Please welcome back our aircraft records supervisor, Robyn. We have missed her. Fly safe!

You can come to any advisor's walk in times. Walk ins are for short 5-10 minute questions or problems. For anything longer, please schedule an appointment.

Sharon is originally from Scottsdale Arizona but has also lived in Israel, Ecuador and Venezuela. She moved from California in 2004 and has been working at SUU since 2005, and became an advisor in 2008. She is very passionate about SUU sports and loves to travel. She loves her job because she loves working with students from all different walks of life and all stages of their education. She says that the best thing about her job is watching students reach their goals and there is nothing better than seeing them on graduation day celebrating with their families and friends after such a great accomplishment!

Tyler is from St. George, Utah. He graduated with a Bachelor's in Criminal Justice and a Master's in Public Administration at SUU. He has always loved the campus and the friendly environment that is here in Cedar City and enjoys being able to help contribute to that!

Sam has been an academic advisor since 2019. He has four bachelors degrees, in History, Anthropology, Classics and Political Science. As well as a masters degree in History. He loves reading about people and learning all of their individual stories, and particularly loves helping students find the right path to

success.
