</tbody>
</table>
This executive summary highlights some of the accomplishments, events, and productivity which indicate the level of competence and dedication of the faculty in the Walter Maxwell Gibson College of Science and Engineering (WMG COSE)

1. Three faculty from WMG COSE received accolades from the University this year. Elizabeth A. (Betsy) Bancroft, Assistant Professor of Biology, received the SUU Outstanding Educator award. Dezhi Wu, Associate Professor of Information Systems, earned the SUU Outstanding Scholar award. William H. (Bill) Heyborne, Assistant Professor of Biology was voted the 2013 SUU Thunderbird Professor of the Year.

2. Our healthcare professional acceptance successes were particularly strong this year. Data for the 2013-24 academic year, shows that 93% of WMG COSE applicants were accepted to medical school (and decisions were rendered by February 2014); 86% of dental school applicants were successful; 100% of WMG COSE graduates who applied for optometry admissions were accepted. This success continues to be attributable to a dedicated faculty and student body and a working partnership between the southern Utah Area Health Education Center's (AHEC) Rural Health Scholars program, directed by Ms. Rita Osborn, and the WMG COSE. This partnership is serving the region very well, as attested to by our outstanding success in placing students in graduate healthcare programs.

3. SUU Nursing student's pass-rate on the national standardized licensure exam (NCLEX-RN) was 97.4% for this academic year which compares favorably with the national rate of 85.5%. The success of our students is a great tribute to the patience and determination of our nursing faculty and leadership.

4. The Voyager project, which is directed by Professor Peggy Wittwer (Beverley Taylor Sorenson College of Education and Human Development), continues to reach out to public education in the region. Peggy is assisted by WMG COSE Professors John R. Taylor and Mackay B. Steffensen. Voyager is a state of the art mobile laboratory loaded with teaching technology and able to deliver it to remote locations. Check out our website: http://suu.edu/cose/voyager/.

5. This year marks the 10th year of the Southern Utah Center for Computing, Engineering, and Science Students (SUCCESS) Academy partnership with SUU. Of the 100 graduates, 87 earned SUU Associate of Science degrees in 2014 while completing their high school diplomas. School-wide, SUCCESS Academy at SUU earned 5220 concurrent enrollment credits from Southern Utah University and paid over $100,000 dollars in tuition costs for Senior participation in on campus courses. Over 80% of the graduating class will attend SUU to complete their Bachelor of Science degree. This continues to be a successful collaboration and we thank Principal John Tripp and his staff for the opportunity to continue the partnership. Additional information can be found at: http://successacademyonline.com/.

6. The Cedar Mountain Science Camp (CMSC) continues to serve the region. Under the direction of Peggy Wittwer, Assistant Professor of Elementary Education, this joint program between the Beverly Taylor Sorenson College of Education and Human Development and the WMG COSE has provided high-quality outdoor education to over 5000 4th-6th students in the last fifteen years. This summer Professor Wittwer and her staff conducted nine separate camp sessions and served 381 elementary students from 67 different regional towns, with 356 others turned away for lack of space. Additionally, the 4th annual Camp Extreme engaged 46 students with rock climbing, rappelling, whitewater rafting and other skills. More information is available at: http://suu.edu/cose/center/.
7. The Center for Applied Research and Advanced Technology (CARAT) is established to facilitate communication and collaboration between WMG COSE and commercial enterprises. Such interaction includes technical assistance, placement of student interns, promoting student employment, and dissemination of current developments in science, engineering, and technology. This latter aim is partially achieved by monthly CARAT seminars open to the public. See [http://suu.edu/cose/seminar.html](http://suu.edu/cose/seminar.html)

8. The College was successful in obtaining numerous grants. The largest interdisciplinary grants include:
   - WMG COSE continued a National Science Foundation S-STEM award of $116,000/year for the years 2012-2016 to further enhance the preparation of Science, Technology, Engineering, and Math Educators at SUU. Kudos to Principal Investigator Jana R. Lunt and her team consisting of Bruce R. Howard, Glen R. Longhurst, John S. MacLean and Fredric R. Govedich. There were seven new S-STEM scholarships awarded in 2013-2014 along with 13 continuations from 2012-2013.
   - A State of Utah Technology Intensive Concurrent Enrollment (TICE) award of $114,000 to create online learning modules to teach computer aided design was presented to Richard Cozzens, et al.
   - Other grants are listed in the department summaries.

9. The [Fifth Annual WMG COSE Undergraduate Research Symposium](http://suu.edu/cose/symposium/) was held on November 18, 2013 in the Hunter Conference Center. Presentations included in-progress and more complete research presentations by students and faculty. Inter-departmental collaborative presentations were particularly encouraged. There were 43 poster and 30 oral presentations at this year’s meeting. The abstracts and some photos are available for examination at: [http://suu.edu/cose/symposium/](http://suu.edu/cose/symposium/).

10. WMG COSE offered numerous high school outreach events during 2013-14, incorporating student contests, prizes, and special guests.
   - Engineering Week at SUU ([http://suu.edu/cose/ie/engineeringweek/](http://suu.edu/cose/ie/engineeringweek/))
   - Southern region of the Utah State Math Contest ([http://www.suu.edu/faculty/armstrong/mathcontest.php](http://www.suu.edu/faculty/armstrong/mathcontest.php))
   - Southern Utah Science and Engineering Fair ([http://suu.edu/cose/fair/](http://suu.edu/cose/fair/))
   - 11th Annual Chemical Olympics ([http://suu.edu/faculty/samha/chemolympics/](http://suu.edu/faculty/samha/chemolympics/))
   - Technology Fair ([http://suu.edu/cose/techfair/](http://suu.edu/cose/techfair/))
   - Technology, Engineering, and Computer Science Summer Camp ([http://suu.edu/cose/summercamp.html](http://suu.edu/cose/summercamp.html))
   - High School Interactive Experiences ([http://suu.edu/cose/hsie/](http://suu.edu/cose/hsie/))

11. This has been another productive year for College faculty. For the 2013-2014 academic year, the following data were reported:
   - Refereed Scholarly Publications – 18
   - Refereed Presentations at Professional Meetings – 46
   - Books and other documents authored – 4
   - Funded Grants – 18
   - Special Recognitions and Awards – 2

12. Beginning 1 July 2014, six of our faculty obtained tenure and promotion to Associate Professor: Nathan A. Barker, James C. Chisholm, Shalini Kesar, John M. Murray, Paul Spruell, and John R. Taylor. We note the retirements or resignations of ten WMG COSE faculty/staff and acknowledge their efforts on behalf of the College: James C. Chisholm, James M. Crouch, Boyd E. Fife, Terri J. Hildibrand, Martha Ann “Marty” Larkin, Andrzej M. Lenard, Glen R. Longhurst, Radhika P. Nair, Desmond N. Penny, and Janet E. Warner.
It is with sadness that we note the passing of a true legend among SUU faculty. Dr. James Emerson Bowns joined the faculty of College of Southern Utah (one of SUU's previous names) in 1965. He taught courses in agriculture, range management, and forestry throughout his 40+ year career. Possessed of a gentle spirit and a winning smile, he was beloved by SUU faculty and students. Nearly every time I speak with biology and agriculture alumni, they ask about Dr. Bowns (I never felt worthy to call him anything but that, either). Dr. Bowns was also involved in extension activities through Utah State University, and much respected by regional ranchers and agriculture professionals for his no nonsense, common sense solutions to their challenges. He served on numerous advisory committees including the Utah Department of Natural Resources, the Bureau of Land Management, and Bryce Canyon Natural History Association. His significant influence survives him, but we will surely miss the opportunity to spend time in the company of this great man (see the back cover of this document for a photo).

This academic year initiates a “season of change” for the Walter Maxwell Gibson College of Science and Engineering. As was noted in the executive summary, six faculty members with 118 years of combined service retired this year. The College is so grateful for the contributions of these outstanding faculty members and the thousands of student’s lives that have been influenced by their efforts. We will miss these friends and the opportunity to rub shoulders with them daily. However, I want to assure the reader that we have exercised due diligence and have already secured the services of outstanding new faculty members to continue the legacy of service of our retirees and we look forward to the opportunity of working closely with these individuals.

Amid all of the personnel changes (and there are many more than these six retirees), I want to assure our alumni that the vision, mission, and core values of the WMG COSE have not changed. We will continue to provide outstanding instruction using highly qualified faculty members, and take time to become personally acquainted with, and involved in, the lives of our students. We know our students by name, and seek to engage them outside the formal classroom setting. Our graduate placement rates exceed the national average, our Nursing licensure pass rates are consistently above state and national averages, and our 20 year healthcare acceptance rates are some of the best in the region. SUU and the WMG COSE continues to be an academic haven, and a place you can send your children and grandchildren with confidence and pride.

The 2013-14 SUU Valedictorian was Kori Ann Corbridge, a mathematics education major from Glendale, Utah. We are so proud of Kori Ann and what she has accomplished at SUU. Like a proud parent, I can’t help but point out the frequency with which WMG COSE seniors are considered and selected for this honor. We are privileged to work with outstanding young people at this institution.

As we conclude another outstanding year, and I reflect on the accomplishments of the WMG COSE, I gratefully acknowledge the contributions of our outstanding students, committed faculty, and tireless staff. It is a pleasure to work with such consummate professionals. It is their efforts that make SUU a great university.

Sincerely,

Robert L. Eves
WALTER MAXWELL GIBSON COLLEGE OF SCIENCE AND ENGINEERING
MISSION AND GOALS

Mission

The Walter Maxwell Gibson College of Science and Engineering is made up of academic programs in agriculture, biology, chemistry, computer science, engineering and technology, geography, geology, information systems, mathematics, nursing, nutrition, and interdisciplinary studies. These programs are housed in the departments of Agriculture and Nutrition Science, Biology, Integrated Engineering, Mathematics, Nursing, Physical Science and the School of Computing and Technology. We operate or participate in the operation of several special learning environments for students that include an astronomical observatory, a GIS lab, a certified water lab, a scanning electron microscopy lab, the Garth & Jerri Frehner Natural History Museum, the Cedar Mountain Science Center, the Valley Farm, a Computer Forensic Lab, a Networking and Security Lab, the James E. Bowns Herbarium and the Mountain Ranch. We serve as the center of learning for the undergraduate STEM programs offered at SUU. We also serve as the resource center of scientific knowledge and expertise for southern Utah. The purpose of the Walter Maxwell Gibson College of Science and Engineering is to provide comprehensive classroom and experiential learning that emphasizes critical thinking, problem solving, decision-making, and communication in STEM. The faculty is committed to providing high-quality education, individual guidance and assistance to students, and helping them grow intellectually, professionally and personally while pursuing their academic goals.

Goals and Objectives

The observable, measurable goals of the Walter Maxwell Gibson College of Science & Engineering and the objectives by which they will be accomplished are:

1. GOAL: prepare students for graduate and professional schools.
   OBJECTIVE: offer coursework and active learning experiences appropriate to the prerequisites of specified post-baccalaureate programs.
   ASSESSMENT: tabulate student reportage on application/acceptance to post-baccalaureate programs.
   For this academic year, we note the following:
   - 93% acceptance to medical schools
   - 86% acceptance to dental schools
   - 100% acceptance to optometry programs

2. GOAL: prepare students for careers using their baccalaureate degree.
   OBJECTIVE: offer coursework appropriate for employment related to departmental majors or minors.
   ASSESSMENT: require standardized, nationally-normed tests where appropriate and student reportage of employment at baccalaureate level.
   For 2013-14, the following were reported:
   - Educational Testing Service (ETS) Major Field Exams
     - Chemistry—70th percentile student average
     - Biology—40th percentile student average
     - Computer Science—77th percentile student average
   - American Chemical Society (ACS) end-of-course exams
     - Average for all Summer 2013 sections: 76th percentile
     - Average for all Fall 2013 sections: 70th percentile
     - Average for all Spring 2014 sections: 73rd percentile
   - NCLEX national standardized nursing licensure exam
     - 95% pass rate for Fall 2013
     - 100% pass rate for Spring 2014
3. GOAL: develop skills in analysis, critical thinking, problem solving, decision-making and communication.
OBJECTIVE: offer well-planned and pedagogically sound learning exercises in courses and in research projects.
ASSESSMENT: annually examine and evaluate course syllabi, course materials, and student research experiences.
For 2013-14
- Each syllabus was examined at the department chair level.
- Student research experiences were evaluated during local presentation of the results, including the Festival of Excellence and 5th Annual WMG COSE Research Symposium.

4. GOAL: provide hands-on experiences with state-of-the-art scientific instruments and equipment
OBJECTIVE: provide coursework and research opportunities that include opportunities to use equipment.
ASSESSMENT: inventory current, and continuously update need for future, equipment.
For 2013-14
- A new Nuclear Magnetic Resonance (NMR) was purchased for use in chemistry classes

5. GOAL: provide highly skilled teachers and professors that are also respected scholars.
OBJECTIVE: recruiting Ph.D. - prepared faculty, reward good teaching, encourage faculty to conduct funded research and publish results, and encourage participation in professional organizations.
ASSESSMENT: annually evaluate faculty performances, teaching, scholarship, service, and collegiality using criteria and performance standards developed by departments and the college.
- All faculty members were formally evaluated by at least their chairs, peers, and/or the dean during 2013-14.
- All new faculty hires are highly qualified, with all tenure track faculty holding terminal degrees.

6. GOAL: provide special, unique learning opportunities.
OBJECTIVE A: utilize the Valley Farm, Mountain Ranch, Cedar Mountain Science Center, SUU's Ashcroft Observatory, Water Lab, the Garth & Jerri Frehner Natural History Museum, the GIS lab, and the molecular genetics and ecology labs.
ASSESSMENT: annually evaluate the use of our specialized learning environments.
- The Valley Farm continues to support the SUU agriculture program.
- Cedar Mountain Science Camp served 381 students in nine separate camps and continues to have many more applicants than it can accommodate.
- The Ashcroft observatory is utilized as a teaching laboratory each semester and continues to hold community nights each Monday.
- The Water Lab continues to provide a community resource and employment and hands-on experience to SUU chemistry students.
- The Geographic Information Systems (GIS) lab is supporting coursework and completing contract work for local, state and federal agencies.
- The molecular genetics and ecology labs provide undergraduate research support

7. GOAL: maximize the utilization of our unique community and geographic resources
OBJECTIVE: foster and strengthen community and agency relationships.
ASSESSMENT: annually evaluate community and agency interaction.
- Faculty members from WMG COSE continue to serve on the cooperating association boards of Zion and Bryce Canyon national parks.
- WMG COSE continues to be a partner in the Intergovernmental Internship Cooperative (IIC) effort, which provides internship opportunities for SUU students with public land management agencies.
Mission Statement

Agriculture Science
The mission of the agriculture program is to offer all students the opportunity to understand the discipline of agriculture as an applied science and a model for the principles of bioeconomics. The program is closely allied to the concept of service to the agricultural community. Recognizing the diversity of agriculture, faculty will articulate partnerships with colleagues and programs across the university campus. The agriculture program demonstrates teaching excellence by maintaining a faculty of well-educated and experienced agriculturalists. The agriculture program promotes a strong, hands-on, structured learning atmosphere and provides opportunities for independent inquiry and scholarship of application by students.

Nutrition Science
Recognizing the critical role of nutrition to all human endeavors, the mission of the nutrition program is to provide sound, science-based principles, theories and applications to students whose personal or professional interests embrace the discipline. The nutrition program at SUU prepares students for a number of related careers or entrance into a graduate program upon degree completion at SUU. Additionally, the program promotes wellness by offering a minor and support courses to compliment a variety of other disciplines, especially those related to health and human services and athletics. The program demonstrates dedication to outstanding teaching by maintaining a faculty of well educated, professionally qualified professor-practitioners.

Programs and Degrees Offered

BACHELOR DEGREES
BS Human Nutrition/Allied Health
BS Human Nutrition/Pre-Dietetics

ASSOCIATE DEGREES
Agriculture: Livestock and Farm Management
Agriculture: Equine Studies

MINORS
Agriculture
Human Nutrition

CERTIFICATES
Agriculture: Livestock Farm Management

Student Learning Outcomes

Agriculture Science
1. Students will demonstrate knowledge of scientific principles related to agriculture.
2. Students will demonstrate knowledge of agricultural industries including structure, production practices, and management principles.
3. Students will demonstrate effective application of agricultural knowledge and resources to solve problems and perform relevant activities.
4. Students will demonstrate effective communication appropriate to the discipline.

Nutrition Science
1. Students will demonstrate an understanding of nutrition, its language, history, findings, and applications.
2. Students will demonstrate effective and professional oral and written communication and use of current information technologies when communicating with individuals, groups, and the public.
3. Students will synthesize new knowledge from scientific literature; students will demonstrate their knowledge and understanding of the following:
   a. the scientific method
   b. reading, understanding, and critiquing peer-reviewed literature
4. Students will use appropriate tools to carry out investigations in nutrition courses.

Productivity Highlights 2013-14

Scholarly Presentations at Professional Meetings

Schmidt, M.; Moore, R.; Bryslan, N. “The Effect of Education on Hydration Status of Female Collegiate Gymnasts at Southern Utah University”, Food & Nutrition Conference & Expo, October 22 2013, Houston TX

Schmidt, M.; Christiansen, S.; Fausett, S.; Acker, D; Gose, N. “A Comparison of Elementary School Lunch between the United States and Japan”, Food & Nutrition Conference & Expo, October 22 2013, Houston TX

Violett, R.; Reid, C.; Winward, D. “Rubber Rabbitbrush control Using a Combination of Mowing and Various Herbicide Treatments”, Western Society of Weed Science, March 10—12 2014, Colorado Springs CO

Professional Memberships and Community Service

Nica Clark
- Student service-learning coordinator for:
  - Iron County Share & Care
  - Iron County School District
  - Cedar City Senior Center
  - LDS Bishops Storehouse
  - Emerald Point Assisted Living Center
  - Hurricane Care & Share
  - St. Jude’s Community Dinner
- Member of:
  - Academy of Nutrition & Dietetics
  - Phi Kappa Phi Honor Society

Chad L. Gasser
- Editor or Reviewer for:
  - Journal of Animal Science
  - Animal Reproduction Science
  - NACTA Journal
- Member of:
  - American Society of Animal Science
  - NACTA
- Judge or organizer for:
  - FFA events
  - Iron County Farm Field Day
  - SW Junior Livestock Show

Artis P. Grady
- Member of:
  - Academy of Nutrition & Dietetics
  - AAFCS/UAFCFS
  - Delta Kappa Gamma
  - Phi Kappa Phi Honor Society
  - Kappa Omicron Nu Honor Society
- Nutrition consultant for The Spectrum/Daily News
- Member Head Start Health Advisory Committee

Matthew C. Schmidt
- Member of Academy of Nutrition & Dietetics
- Nutrition consultant for SUU athletic teams
Memberships & Service (continued)

Randall D. Violett
- Member of:
  - Society for Range Management
  - NACTA
  - NAAE
  - Western Society of Weed Science
- Fall Livestock Festival judge

Dean L. Winward
- Member of:
  - NACTA
  - Utah Farm Bureau Federation
  - Utah Weed Control Association
  - Iron County Cattleman’s Assoc
- Iron County Fair judge
- Judge for SW Junior Livestock Show
- BSA merit badge counselor
- Utah DWR arbitrator

Lee G. Wood
- Member of:
  - NACTA
  - Equine Science Society
  - NAEEA
  - American Society of Animal Science
  - American Quarter Horse Association
  - Iron County Cattleman’s Association
  - Utah Cattleman’s Association
- BSA merit badge counselor

Cynthia B. Wright
- Member of:
  - Society for Nutrition Education & Behavior
  - AAFCS/UAFC
  - Utah Coalition for Ed Technology
  - Healthy Iron County
- Reviewer for the Journal of Family and Consumer Sciences
- Volunteer for Utah SW Public Health Department
Department of Biology

Mission Statement

The mission of the Department of Biology is to provide our students with personalized, participative educational experiences over a broad range of biological disciplines that promote critical thinking, effective communication and lifelong learning skills. We provide learning opportunities where students can gain the knowledge, develop integrity and acquire the empathy needed to become independent researchers in the advancement of science.

Programs and Degrees Offered

BACHELOR DEGREES:
BA/BS Biology
BA/BS Biology Education

MINOR:
Biology

Student Learning Outcomes

A. Students will demonstrate an understanding of general knowledge of biology: its language, history, findings and applications.
B. Students will demonstrate an understanding of the dynamics of interactions and adaptations within and among biological systems.
C. Students will demonstrate an understanding of the methodologies of science and will synthesize new knowledge from scientific literature.
D. Students will communicate effectively in oral, written, and other formats.
E. Students will use appropriate tools to carry out investigations in their intended fields.

Department of Computer Science & Information Systems

Mission Statement

The Department of Computer Science and Information Systems (CSIS) supports the mission of the University and the College of Science and Engineering by providing a high quality graduate and undergraduate education to students through certificate, associate, baccalaureate, and master degree programs.

The mission of the Department is to provide a learning-centered environment that enables students, faculty, and staff to achieve their goals and to empower our students to compete on a global level for careers in government, industry, secondary education, and acceptance to graduate school.

The Department provides programs in computer science and information systems. The curricula are rich with opportunities for students to develop a sound understanding of fundamentals as well as specialized theories, practices, and ethics that enhance their learning.

The CSIS faculty are committed to providing high-quality education, individual guidance and assistance to students, helping them to develop the attributes of critical thinking, effective communication, lifelong learning, and individual integrity while pursuing their academic goals as well as engaging in scholarly activities to enhance our classes, involve students and, to assist in the economic development of the region through partnerships with industry, inventors, and entrepreneurs.

Programs and Degrees Offered

BACHELOR DEGREES:
BS Computer Science
BS Computer Science, Forensic Science Emphasis
BS Information Systems

ASSOCIATE of APPLIED SCIENCE
Information Technology
   Networking/Telecommunications Emphasis
   Information Technology Emphasis
   CS and IS Security Emphasis

MINOR:
Computer Science (non-teaching)
Computer Science Emphasis in Teacher Education
Information Systems (non-teaching)

Student Learning Outcomes

General Criteria
a. An ability to apply knowledge of computing and mathematics appropriate to the discipline;
b. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution;
c. An ability to design, implement and evaluate a computer-based system, process, component, or program to meet desired needs;
d. An ability to function effectively on teams to accomplish a common goal;
e. An understanding of professional, ethical and social responsibilities;
f. An ability to communicate effectively with a range of audiences;
g. An ability to analyze the impact of computing on individuals, organizations, and society, including ethical, legal, security and global policy issues;
h. Recognition of the need for, and an ability to engage in, continuing professional development;
i. An ability to use current techniques, skills, and tools necessary for computing practice.

Computer Science Program Criteria
j. An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the tradeoffs involved in design choices;
k. An ability to apply design and development principles in the construction of software systems of varying complexity.

Information Systems Program Criteria
An understanding of processes that support the delivery and management of information systems within a specific application environment.

The Computer Science and Information Systems degrees at Southern Utah University are ABET accredited.

Department of Engineering Technology & Construction Management

Mission Statement

The Engineering Technology and Construction Management programs provide students with a broad range of academic instruction and in-depth skill development, in the program discipline areas of Construction Management, Electronics Engineering Technology, CAD/CAM Engineering Technology, CAD/GIS Engineering Technology, through professional, credentialed faculty, using state of the art facilities and equipment. Furthermore, we aim to provide meaningful service to industry, government, and all communities served by the university. The mission of the Department of Engineering Technology and Construction Management is to provide a learning-centered environment that enables students, faculty, and staff to achieve their goals and to empower students to compete on a global level for careers in government, industry, secondary education, and acceptance to graduate school.

The curricula are rich with opportunities for students to develop a sound understanding of fundamentals as well as specialized theories, practices, and ethics that enhance their learning experience. The Engineering Technology and Construction Management faculty are committed to providing high-quality education, individual guidance and assistance to students, helping them to develop the attributes of critical thinking, effective communication, lifelong learning, and individual integrity while pursuing their academic goals to assist in the economic development of the region through partnerships with industry, inventors, and entrepreneurs.

Programs and Degrees Offered

BACHELOR DEGREES
BA/BS in:
- Construction Management
- Engineering Technology
  - Arch/Civil Design Emphasis
  - CAD/CAM Emphasis
  - CAD/GIS Emphasis
  - EET Emphasis

ASSOCIATE OF APPLIED SCIENCE
- Construction Technology
- CAD/CAM Technology
- Electronics Technology

MINORS
- Construction Technology
- CAD/CAM Technology
- Electronics Technology

CERTIFICATES
- Civil Design/CAD
- Construction Technology

Student Learning Outcomes

a. an ability to select and apply the knowledge, techniques, skills, and modern tools of the discipline to broadly-defined engineering technology activities;
b. an ability to select and apply a knowledge of mathematics, science, engineering, and technology to engineering technology problems that require the application of principles and applied procedures or methodologies;
c. an ability to conduct standard tests and measurements; to conduct, analyze, and interpret experiments; and to apply experimental results to improve processes;
d. an ability to design systems, components, or processes for broadly-defined engineering technology problems appropriate to program educational objectives;
e. an ability to function effectively as a member or leader on a technical team;
f. an ability to identify, analyze, and solve broadly-defined engineering technology problems;
g. an ability to apply written, oral, and graphical communication in both technical and nontechnical environments; and an ability to identify and use appropriate technical literature;
h. an understanding of the need for and an ability to engage in self-directed continuing professional development;
i. an understanding of and a commitment to address professional and ethical responsibilities including a respect for diversity;
j. a knowledge of the impact of engineering technology solutions in a societal and global context; and
k. a commitment to quality, timeliness, and continuous improvement.

Mission Statement

The mission of the Integrated Engineering program is to support and realize with excellence the overall mission and vision of the University and to provide a broadly based, cross disciplinary engineering education founded upon a design-oriented curriculum which integrates several disciplines into a whole, enabling graduates to undertake the wide variety of design and manufacturing challenges that modern industry faces.

Programs and Degrees Offered

BACHELOR DEGREES
BS Integrated Engineering

ASSOCIATE DEGREES
Pre-Engineering

Special Accreditation

The Integrated Engineering degree at Southern Utah University is ABET accredited.

Student Learning Outcomes

a. an ability to apply knowledge of mathematics, science, and engineering;
b. an ability to design and conduct experiments, as well as to analyze and interpret data;
c. an ability to design a system, component, or process to meet desired needs;
d. an ability to function on multidisciplinary teams;
e. an ability to identify, formulate, and solve engineering problems;
f. an understanding of professional and ethical responsibility;
g. an ability to communicate effectively;
h. the broad education necessary to understand the impact of engineering solutions in a global and societal context;
i. a recognition of the need for, and an ability to engage in life-long learning
j. a knowledge of contemporary issues;
k. an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Department of Mathematics

Mission Statement

Not only does the Department of Math serve future mathematicians, scientists, business strategists and engineers, but also future teachers of mathematics as well as those pursuing studies in the arts and humanities. Except for reading, no other skill is so highly valued across the breadth of professional society as those that mathematics is responsible to teach.

The Department of Mathematics is committed to offering a well-rounded academic program that will enhance the lives of those who take our courses. The demand for knowledge we offer is enormous in both industry and education. In secondary schools the two greatest shortages of qualified teachers across the nation are in mathematics and technology, and jobs outlooks rate mathematics as one of the highest needs of college graduates.

Programs and Degrees Offered

BACHELOR DEGREES
BS Mathematics:
   Actuarial Science Emphasis
   Pure Math Emphasis
BS Mathematics Education

MINORS
Actuarial Science Emphasis
Pure Math Emphasis
Mathematics Education

Student Learning Outcomes

1. Use standard mathematical techniques to solve computational problems.
2. Demonstrate knowledge of fundamental mathematical concepts and results in the core content areas.
3. Use content knowledge to solve applied and real-world mathematical problems.
4. Communicate mathematics effectively using proper notation and terminology.
5. Use logical reasoning to construct clear and concise mathematical proofs.

Department of Nursing

Mission Statement

The Department of Nursing is made up of academic programs that prepare individuals for professional nursing practice. A Bachelor of Science in Nursing is recommended for students preparing for entry into nursing practice. We offer a learning-centered education that meets the requirements for a baccalaureate degree at SUU and ensures that graduates have the abilities to be successful professional nurses. The purpose of the Department of Nursing is to provide learning opportunities that engage students in a comprehensive program of classroom and experiential learning that emphasizes caring, critical thinking, problem solving, ethical decision making, and communication.

Student Learning Outcomes

A. Students will provide quality professional nursing care based on a synthesis of theoretical and empirical knowledge from nursing, physical and social sciences, arts and humanities, and life experiences.
B. Students will use evidence as the basis for clinically competent contemporary nursing care.
C. Students will communicate effectively using various means in a variety of roles and settings.
D. Students will optimize health care to diverse individuals, families, groups and communities through collaboration with interdisciplinary health care teams.
E. Students will demonstrate intellectual curiosity, critical thinking, and motivation toward life-long learning.
F. Students will influence the quality of nursing and health care using leadership skills, management concepts, and a knowledge of the political system.
G. Students will be legally and ethically accountable for clinical nursing practice.
H. Students will assume the role of generalist nurse and become responsible members of the profession

Special Accreditation

The baccalaureate program at Southern Utah University is accredited by the Commission on Collegiate Nursing Education.

Department of Physical Science

Mission Statement
The mission of the Department of Physical Science is to provide an environment that fosters academic excellence in physical science disciplines. The Department of Physical Science at Southern Utah University offers undergraduate programs in Chemistry, Geosciences, Geographic Information Systems, and Physics. We operate several special learning environments for students that include a nationally certified environmental water laboratory, a GIS lab, a scanning electron microscopy lab, an astronomical observatory, the Edward & Shirley Stokes open chemistry lab, and a thin section preparation laboratory. We provide comprehensive classroom and experiential learning environments that accentuate critical thinking, problem solving, decision making, and communication in the physical sciences. We serve as the center of physical science knowledge and expertise for southern Utah.

Programs and Degrees Offered

BACHELOR DEGREES

BA/BS Physical Science:  
Teacher Education Emphasis

BS Chemistry:  
Professional Emphasis  
Health Care Emphasis  
Forensic Emphasis  
Teacher Education Emphasis

BS Geology:  
Professional Emphasis

MINORS
Chemistry  
Chemistry Teacher Education  
Geography  
Geography Teacher Education  
Geology Teacher Education  
Physics  
Physics Teacher Education

CERTIFICATES  
Geographic Information System

Student Learning Outcomes

Chemistry  
A. Students should be able to define problems clearly, develop testable hypotheses, design and execute experiments, analyze data using appropriate statistical methods, and draw appropriate conclusions.  
B. Students should be able to use the peer-reviewed scientific literature effectively and evaluate technical articles critically.  
C. Students should understand responsible disposal techniques, understand and comply with safety regulations, understand and use material safety data sheets (MSDS), recognize and minimize potential chemical and physical hazards in the laboratory, and know how to handle laboratory emergencies effectively  
D. Students should be able to present information in a clear and organized manner, write well-organized and concise reports in a scientifically appropriate style.

Geology  
Students will demonstrate mastery of the following outcomes:  
A. Knowledge of the physical and natural world  
B. Integrative learning through teamwork, problem solving, inquiry, and analysis  
C. Introduction and development of geological field and lab skills  
D. Written and oral scientific communication

Special Accreditation

Although not a formal accrediting body, the American Chemical Society’s Committee on Professional Training establishes guidelines and procedures for the approval of bachelor’s degrees in programs in chemistry. The Chemistry Professional Emphasis degree at Southern Utah University is approved by the ACS.

Productivity Highlights 2013-14

Scholarly Presentations at Professional Meetings

Davis, L.E.; Eves, R.L.; Pollock, G.L. “They’re Just Rocks!—Overcoming the Challenges of Teaching Geology to NPS Front-line Interpreters”, Geologic Society of America Section Meeting, May 2014, Bozeman MT

Chipman, J.; MacLean, J.S. “An Introductory Student’s Perspectives on a Geology Field Trip to the Book Cliffs of Utah” Geological Society of America Annual Meeting; October 2013, Denver CO

Dayton, C.E.; MacLean, J.S. “Hydrothermal Mineralization of the Jurassic Navajo Sandstone in the Footwall of the Blue Mountain Thrust Fault, Southwestern Utah”, Geological Society of America Annual Meeting; October 2013, Denver CO

Scholarly Presentations (continued)

Kidman, G.; Skankey, R.; MacLean, J.S. “Martian plate motions in the vicinity of Valles Marineris and Tharsis Rise”, Geological Society of America Annual Meeting; October 2013, Denver CO

MacLean, J.S. “Reactivation of Conjugate Faults in the Footwall of Bryce Canyon’s Rubys Inn Thrust Fault”, Geological Society of America Annual Meeting; October 2013, Denver CO

White, B.J.; MacLean, J.S. “What is Wilderness? Assessing the Place as Text Concept in a Partners in the Parks adventure”, National Collegiate Honors Council Conference, November 2013, New Orleans LA

Weaver, J.; Steffensen, M.B. “Synthesis, Analysis, and Biological Activity of Novel Organoarsenic Products”, Utah Conference on Undergraduate Research, February 2014, Provo UT

Scholarly Publications

Documents, Books, and other Publications

Professional Memberships and Community Service

James C. Chisholm
• Member of American Physical Society
• Public school outreach

Daniel J. Eves
• Sterling Scholar Judge

Robert L. Eves
• Board member or Trustee of
  o Bryce Canyon Natural History Association
  o Escalante Heritage Center
  o Rocky Mountain NASA Space Grant Consortium

Nathan A. Hanson
• Public school outreach

Jennifer E. Hargrave
• Member of:
  o Geological Society of America
  o Society of Vertebrate Paleontology
  o National Association of Geoscience Teachers
  o Sigma Gamma Epsilon National Honor Society
  o Colorado Plateau Field Institute Advisory Council
• Public school outreach

Bruce R. Howard
• Member of:
  o AAAS
  o American Chemical Society

Paul R. Larson
• Member of:
  o Association of American Geographers
  o National Council for Geographic Education
  o National Geographic Society
  o Phi Kappa Phi National Honor Society
  o Board of Directors, Iron County Historical Society
  o Editorial Board, Iron County Journal
• Sterling Scholar Judge
• Textbook advisor for publisher McGraw-Hill

External Grants

David J. Maxwell, Bridget Eastep
• CPCESU Zion and Bryce Canyon NP Archeological GIS support, 2011—2013, extended through December 2014 ($50,704)
• Forest Service (USDA) ALP to CadNSDI GIS Conflation Project, Spring 2013—Fall 2013, extended through September 2014 ($25,000)

Radhika P. Nair
• Western Alliance to Expand Student Opportunities Research Grant: Synthesis of Imines Containing Biological Molecules – Purines and Pyrimidines, Spring 2014 ($1378)

Professional Consulting

David J. Maxwell
• Beaver 30x60 Quadrangle revisions 1:100k Geology Map, Utah Geologic Survey, 2013-14 ($5000)
• Adamsville Quadrangle revisions 1:24k Geology Map, Utah Geologic Survey, 2013-14 ($4000)
• Soil map of Western Iron County, Terra West Consulting, 2013 ($1500)
• GPS training for Intergovernmental Internship Cooperative NPS students, Spring 2014 ($750)
• GIS/GPS data manipulation for Red Cliffs Reserve impacts study (pro bono)

Mackay B. Steffensen
• Instructor for the Rural Health Scholar professional exam preparation course, Spring 2014 ($1000)
Memberships & Service (continued)

John S. MacLean
- Member of:
  - Geological Society of America
  - Utah Geological Association
  - National Association of Geoscience Teachers
  - Steering committee for Partners in the Parks

David J. Maxwell
- Member of:
  - Utah Geographic Information Council
  - Five Counties GIS User Group
  - Southern Utah Technology Council
- Mapping LDS ward boundaries
- Public school outreach

Amber C. McConnell
- Member American Chemical Society
- Reviewer for Journal of Physical Chemistry Letters

Christopher F. Monson
- Member American Chemical Society (ACS)
- Reviewer for Journal of the ACS
- Public school outreach

Radhika P. Nair
- Member of:
  - American Chemical Society
  - Phi Beta Kappa National Honor Society
- Reviewer for
  - Journal of Student Research
  - Journal of Biotech Research
  - WAESO 2013-14 undergraduate projects
- Public school outreach

J. Ty Redd
- Member American Chemical Society
- Public school outreach

Mackay B. Steffensen
- Member American Chemical Society
- Public school outreach

Hussein A. Samha
- Public school outreach

Brent A. Sorensen
- Public star parties

Kim H. Weaver
- Reviewer for Journal of Environmental Quality
- BSA merit badge counselor

Nathan S. Werner
- Member American Chemical Society
