

Offroad Checklist

If possible try not to go offroading alone and always tell someone (who isn't going with you) where you are going and when you should be back.

Pre-Trip Maintenance Checklist

- Check engine oil
- Check transmission oil
- Check brake fluid
- Check radiator coolant
- Check windshield wiper fluid
- Check fan belts
- Check hoses
- Check air cleaner
- Check seat belts
- Check tire air pressure (tire air pressure changes for highway driving and off-road driving)
- Check for tire wear or damage
- Check and tighten, if needed, the u-bolts and lug bolts
- Check for frame cracks
- Check brake pads and shoes
- Check for any loose bolts or nuts
- Check shocks
- Check winch for proper operation (if vehicle has one).

Gear to Bring

- First Aid Kit
- Spare Tire
- Jack and tire iron to change your tire
- Tow strap
- Basic tool kit
- Extra gas
- Come-alongs (a hand-operated winch)

Personal Essentials

- Water
- Food
- Sunscreen
- Jacket
- Communication device
- Maps
- Compass or GPS
- Sunglasses
