**INTERNATIONAL
INNOVATION AND
INVENTION EXPO**

The 7th All American DAVINCI International Innovation and Invention Expo

Explore hundreds of Inventions and collaborate with inventors around the world

The event will be held virtually on September 2-3, 2026

With the advancement of technology, innovation of culture, high quality of education system, and research and development of the government and companies, the United States has constantly attracted talents from around the world to invest themselves. The All American DAVINCI International Innovation and Invention Expo supported by American Innovation and Invention is an important platform and good opportunity for showing your creative inventions.

We welcome inventors from all over the world to show your novel ideas and creativities at the expo. In this international event, by sharing your discovery to enhance communication and gain different perspectives between people from different nations and cultures.

Supported by Southern Utah University, American Innovation and Invention Institute, and International Alliance of Innovation and Invention Associations, this expo invites innovators, designers, entrepreneurs, and student inventors around the world to showcase their latest inventions and ideas.

ALL AMERICAN DAVINCI
