

Transferring Credits from an International University to Southern Utah University

*Please note, this process can take up to two months to complete

Decide if you want to replace courses in your major at SUU or, if you want your classes to transfer as elective credits:

To replace courses required for your major at SUU:

- Have your international transcripts and a course syllabus for each class you would like to have reviewed to be transferred
- Submit the original international transcript evaluation and translated course syllabi to the International Student and Scholar Services Office
- After reviewing the evaluation and course syllabi, SUU will determine which courses can be transferred as equivalent to SUU courses, and which can be transferred as elective credit

To receive elective credit ONLY:

- Please submit the original international transcript evaluation to the international admissions office along with a statement that you only want elective credit

**Send Transcript Evaluations to:
Southern Utah University
International Admissions Office
351 W University Blvd.
Cedar City, UT 84720**
