

Transferring Credits from an International University to Southern Utah University

*Please note this process can take up to 2 months.

Decide if you want to replace courses in your major at SUU, or if you just want your classes to transfer as elective credits

To replace courses required for your major at SUU

To receive Elective Credit Only

Have your International Transcript evaluated by an International Evaluation Service and have your course syllabi translated to English

Submit the original International Transcript Evaluation to the International Admissions Office along with a statement that you only want elective credits

Submit the original International Transcript Evaluation and translated course syllabi to the International Student & Scholar Services office

After reviewing the evaluation and course syllabi, SUU will determine which courses can be transferred as equivalent to SUU courses, and which can be transferred as elective credit

All international transcripts must be evaluated and converted into the US grading system through an International Evaluation Service.
