School Library Rules

Take the time to evaluate the rules you use in the school library.

- Are you listing more dos than don'ts for the students at your school?
- How do you reinforce your rules and reward good behavior?
- Are all of your rules necessary?

If you have enough rules for every row in this table, it is possible that you have too many rules. Keep things simple for the students at your school and choose basic rules that will account for many behaviors.

List the rules you plan to use in the school library:	Is this rule positive or negative? (+/-)	Justify the need for this rule:	How you will monitor this rule with your students:
