IV. POLICY

- A. Events at which alcohol is served may be allowed on campus in accordance with established Utah law and University guidelines.
- B. All members of the campus community have a stake in ensuring that when alcohol is served it is done so in a responsible manner. The use of alcohol in any campus facility is a risk management concern because of state statute and personal safety; therefore, alcohol service will only be permitted in an environment where alcohol consumption is in moderation and where a majority of the attendees are of legal drinking age. Generally, when the primary audience for the event is students or when the sponsoring entity is a student group, permission to serve alcohol will be denied. Alcohol consumption will not be approved at an event where it appears the primary focus of that event is alcohol. In the Southern Utah University community, choosing not to consume alcohol must remain as socially acceptable as the consumption of alcohol.
- C. Approval Process
 1. Requests for alcohol service will be made through Event Services.
 2. The event request will be reviewed by the Assistant Vice President for Auxiliary Enterprises, the Chief of University Police, and the Executive Director of Event Services.

3. If there is unanimous approval, a recommendation to allow alcohol to be served at the event will be forwarded to the University President for final consideration.
