Bachelor of Fine Arts in Graphic Design

The Bachelor of Fine Arts (BFA) in Graphic Design is a professional degree which focuses on intensive work in art and design supported by a program of general studies. This degree provides a foundation for the student to develop strategies to solve communication problems and design effective communication products.

The Department of Art and Design at Southern Utah University has a faculty of committed artist/educators who guide and involve their students in many small group and individual endeavors that promote aesthetic and critical thought and skills. The Art Insights is a unique enlightening, energizing and unifying program where students can encounter and discuss an incredible variety of art and design, and meet faculty, visiting artists and students with similar interests and challenging differences.

Graphic design surrounds us: websites, signage, books, advertisements, labels, packaging, symbols, magazines, posters, interactive DVDs. Graphic design is the study of effective visual communication and the art of presenting information in an engaging way to a specific audience. Graphic design as a discipline has a rich history, yet it is always firmly embedded in contemporary culture, business practices, and current technology. Students who graduate with a BFA in Graphic Design at SUU will create a professional portfolio that showcases their work in both print and interactive design. Courses focusing on branding, web and interactivity, print publications and packaging are just a few of the classes in a project-based curriculum. Emphasis is placed on real-world problem-solving, while allowing room for experimentation and growth for each student.
