

DALLIN OYLER

SUUSA SENATOR
HEALTH SCIENCES

My name is Emily Waite and I am currently a Junior studying Anthropology and Criminal Justice! I am running to be your next Student Body President!

I have had the incredible opportunity to serve as the Humanities and Social Sciences Senator this past year. I have actively participated in campus initiatives pertaining to social media outreach, student advocacy, and networking opportunities. My understanding of students' needs has grown immensely and I feel prepared to make headway for positive changes at SUU! My love for the students and faculty is beyond words and I hope to extend this to each of you.

As your Student Body President I will focus on Communication, Building Relationships and Advocating for YOU!

Communication: By sending out a bi-weekly email I will make sure that you know all the opportunities that are available on and off campus. I want to make sure that the resources provided by SUU are highlighted and recognized. I will also amplify the MySUUVoice program while coordinating with the Student Life Enhancement committee to ensure your concerns are addressed!

Building Relationships: There are a number of representatives that are available to serve you! I will host monthly events that will provide an opportunity for you to meet these representatives and connect with them! By building up the people I will serve with, it will create a unified purpose to serve YOU!

As you are looking to network for your future, I would also like to help you in those endeavors! I want to ensure you are connected to on and off campus professionals that will help you expand your opportunities!

Advocacy: Your ideas, thoughts and concerns are of utmost importance to me and I am dedicated to making sure they are heard! By providing the opportunities above it will allow me to gain feedback, become educated on how to approach a solution, collaborate with campus partners to take initiatives and finally report on the change that will be taken! You deserve a leader who will follow through and be transparent during the process.

Together we have the opportunity to communicate, build and advocate for a better SUU!
