

OM MEHTA

SUUSA SENATOR
SCIENCES

My name is Om Mehta, and I'm running for Senator of the College of Science. I absolutely love being here at SUU and would love nothing more than to serve you, my fellow STEM students. I believe that we have an opportunity to make meaningful improvements to our college and continue to uphold our amazing programs. I am committed to making that a reality. I have had the incredible opportunity to be a part of different organizations on campus like the Student Programming Board and Involvement Captains. With SPB & ICs I've been able to help out and plan campus-wide events and connect with students in lots of different ways. With these experiences under my belt, I fully believe I have the skills to make the College of Science a better place for you.

My plan as Senator is to complete these key objectives:

- 1. Improving Research Opportunities:** I will work to further funding for student-led research projects and facilitate more opportunities for research collaborations between students and faculty members.
- 2. Promoting Diversity and Inclusion in Science:** I want to continue promoting programs and initiatives that are aimed at increasing the representation of minorities, especially in STEM fields.
- 3. Supporting Career Development:** I will work to support career development for students by promoting internships and other work experiences that provide students with valuable hands-on experience in their field of study, whether that be by career counseling or job search assistance.
- 4. Communication:** I'm going to work on amplifying communication within our college. I will work with our dean and faculty to make sure you know all the opportunities/resources that are available on and off campus. I want to ensure that you know the resources provided by SUU and be able to answer any questions you might have. I'm here for you.

I am determined to make the College of Science a better place for everyone. I believe that with hard work, dedication, and collaboration, we can achieve our goals and make a positive impact on the college and our community.

Vote 4 Om!
