

## COLLEGE OF HEALTH SCIENCES SENATOR

My name is Landon Lee and I am a sophomore studying exercise science. I am an Ace here at SUU, and I have the amazing opportunity to connect with a variety of students every day. Due to this connection, I have a strong love for SUU and the people who go here. Growing up, I have always been people driven and sought to help others in the best way I can. Being able to run for senator over the college of health sciences and give back to this amazing community is an opportunity I am excited to have! I want to make SUU an amazing experience for others and to fulfill that vision my goals entail increased opportunities to connect and create community. This is how I am striving to accomplish that:

- Service opportunities
  - I believe service is something that is something important for everyone. As a student and as your Health Science Senator I will work and coordinate with neighboring offices to open more service opportunities for students.
- Networking
  - I want to provide social events for students to come out, socialize and meet others. In order to execute this, I will interact with students in the college and be a voice for them.
- Community focused events
  - At SUU, I want to make sure everyone feels at home. Doing so, I would love to plan events to create a sense of belonging for everyone where anyone is welcome! I would love to be able to meet with students and hear out any input!

My love for SUU is strong, and I would love to be your voice for the college of health sciences. Sko Birds!
