

# ALEXIS MCIFF

## SCHOOL OF BUSINESS SENATOR

My name is Alexis McIff, and I am running for the School of Business Senator. My previous leadership experiences will help me effectively represent you. My campaign theme is Elevate Your Experience. I want to help Business Students elevate their experience at SUU in the following ways:

- **Provide student opportunities to connect with businesses.** These connections can be made by working with professors on real-world projects that partner with local companies. These meaningful projects help businesses and provide valuable experiences for students.
- **Enhance leadership opportunities for students** in the School of Business. I love the Business Council and the Club Council and will continue supporting those engaging opportunities. I plan to find ways for more students to have leadership experiences through additional activities and projects.
- **Create opportunities for Business Students to travel** and take field trips to learn about industries. I will do this by working with businesses and School of Business administrators/faculty to facilitate these experiences.

As Business Senator, I want to make the voice of the School of Business heard throughout campus. We have incredible students with amazing ideas, and I will work to make sure they are heard. I will help elevate your experience at the School of Business by being accountable, accessible, and action-oriented. Please reach out and let me know about your ideas and concerns!
