

# GABRIELLE YEAGER

COLLEGE OF ENGINEERING  
AND COMPUTATIONAL  
SCIENCES SENATOR

**My name is Gabrielle Yeager, I am a sophomore majoring in Mechanical Engineering with a double minor in Math and Physics. I am running for the College of Engineering and Computational Science. I want to be your Senator because I am passionate about giving students within the College of Engineering and Computational Science a voice.**

**During my time here at SUU, I have been a part of numerous organizations on campus such as Rocketbirds, Service Leaders, and Alpha Phi. Being involved on campus has given me the experience I need to be able to lead this college to greatness. I am committed to making all students feel welcome and accommodated. I will advocate for the changes that are needed on campus and within the College of Engineering and Computational Science. Everyone deserves to be heard and have their ideas shared with the rest of the Student Senate.**

## **Key Focuses:**

- **Advocating for Chromebook and calculator rentals**
- **Creating more bulletin boards that display scholarship and internship opportunities**
- **Advocating for software prices to be lowered**
- **Advocating for more professors to be hired**
- **Working to create longer computer lab hours in the ELC**
- **Creating open suggestions for change on campus**
