

JUSTINE PADILLA

COLLEGE OF
HUMANITIES AND SOCIAL
SCIENCES SENATOR

Hi T-Bird Nation! My name is Justine Padilla and I am so excited to be running for the 2022-2023 College of Humanities and Social Sciences Senator! I am currently a sophomore majoring in psychology and minoring in family service with plans to become a behavior technician. As a student who cares deeply about her education and continuously strives towards success, I am so humbled and honored to have the opportunity to represent SUU and my academic college in the best way possible.

After primarily having leadership experience in my middle school's student government as well as securing various leadership positions throughout high school, I realized just how much being a leader can impact the experiences of others, which is why for the longest time, my personal motive has always been to LEAD BY EXAMPLE. During my time at SUU, I have previously served in the Involvement Captains program and I currently hold the title of Assistant Event Director on the Student Programming Board. With those two positions, my passion for representing the students and leading others by example grew significantly more important to me.

If elected as HSS senator, I promise for my ultimate goal to make your voice not only heard, but also valued. On top of spreading awareness for what goes on in my academic college and the psychology department in terms of internships, jobs, and other opportunities, I want to make sure that every student's experience at SUU is the best yet. I will do this by collaborating with the Executive Council and the rest of the senate to make sure that every person has a voice and a place here at SUU. I believe that the well-being of all students is vital to obtaining the most amount of success, and I want to focus my campaign with that in mind. Your experience at SUU means very much to me, and your voice matters even more. By voting for me, you are voting for a better campus environment and an overall better college experience.
