

COLLEGE OF ENGINEERING + COMPUTATIONAL SCIENCES SENATOR

I'm McKay Fawcett, and I am looking forward to running for SUUSA Senator as our college's representative. Again! I'm a cyber security major with minors in computer science and sales. It's been an incredible journey serving as a senator this past year. I'm eager to continue my mission of helping our students to develop a sense of belonging and confidence within our college as they receive increased support from student organizations.

This past year I've had the pleasure of working alongside a fantastic team to bring you memorable events like the college holiday party and STEAM week. These events have not only been about celebration but also about fostering a sense of belonging and community within our college. Together, we've also laid the groundwork for exciting new initiatives, such as the speaker series class, which promises to be both inspiring and educational.

One of the highlights of my term has been collaborating with an incredible council of representatives from nearly every department. Their insights and dedication have been invaluable in shaping our efforts to create an inclusive and supportive college culture. As we look ahead to the next academic year, I am determined to build on this foundation and ensure that every perspective is valued.

My vision for the 2024-2025 school year builds on what we have already accomplished. I want to create events that foster networking and academic growth. Additionally, I'm committed to improving communication channels so that no student misses out on valuable resources simply because they weren't aware of the opportunities available to them. Finally, I will be working on a new proposal that will Cement the status of SUU Cybersecurity Competition Team and make SUU a Center for Cybersecurity education in Utah.

With your support, I believe we can achieve great things for our college. Let's continue to build resources and experiences that are relevant, inclusive, and tailored to the needs of our students. Thank you for your consideration and please vote to keep our momentum going strong.

McKay Fawcett
