Electronic Learning Center Wayfinding Signage

SPONSOR: Mason Francis, Engineering and Computational Sciences Senator

CO-SPONSOR: Dane Steele, Sciences Senator

AUTHOR: Mason Francis, Engineering and Computational Sciences Senator

WHEREAS the Electronic Learning Center (hereafter referred to as ‘the ELC’) on the campus of Southern Utah University is difficult to navigate, having a layout that is confusing to many;

WHEREAS the ELC is considered by many who use it to be an eyesore inside and out;

WHEREAS the ELC houses several campus services utilized by students from all fields of study, and said services are frequently difficult to locate within the building;

WHEREAS the layout of the ELC may not be conducive to a smooth evacuation of the building in the event of an emergency;

WHEREAS the Southern Utah University Sign Shop (hereafter referred to as ‘the Sign Shop’) has provided a quote of \$315.11 to install wayfinding signage within the ELC;

LET IT BE RESOLVED that the Southern Utah University Student Association Senate will allocate the amount of \$350 to the installation of the aforementioned signage. This amount is greater than the quote from the Sign Shop to account for the possibility of cost overruns.

LET IT BE FURTHER RESOLVED that this signage will be produced and installed by the Sign Shop in stairwells and elevators within the ELC.

LET IT BE FURTHER RESOLVED that Southern Utah University Facilities Management (hereafter referred to as 'Facilities') will install directories on each level of the ELC near the entryway to help guide people entering the building.

LET IT BE FURTHER RESOLVED that Senators Francis and Steele will also work with Rainbow Sign and Design, a local sign-making contractor, in order to coordinate the production and installation of signage denoting each floor of the ELC.

LET IT BE FURTHER RESOLVED that this signage denoting each floor of the ELC has been discussed and approved by Facilities. Funding for this signage will be allocated in a future bill.
