

Topics for discussion 2/23

Jacqueline,

My name is Chase Lewis, I work with Bonneville Communications in Salt Lake City. I'm helping [Deseret Industries](#) get ready to open up their new thrift store location in Cedar City at the end of April.

Leading up to the grand opening, we're hoping to organize a collection drive to drive donations from the community and increase awareness for the new DI location. I'm reaching out to see if the SUU Women's Network is able to participate in this effort. If you're not already aware, DI is known for being not just a thrift store, but more importantly a service-centered organization that helps provide careers and job training to people who would benefit from it.

Are you interested and able to participate in this collection drive? The two areas we need participation in are promoting the donation drive leading up the store opening, as well as actively donating to the drive itself.

We're excited to help launch this new location that will serve the Cedar City community even better than before. Please let me know what questions you may have!

Best,

Chase Lewis
