## FEBRUARY 2020

### Safety

Maintenance has done a great job of getting aircraft out of the hangar and onto the flight line.

Additionally, two new helicopters were picked up the last week of January. With this blessing comes the increase in traffic, both on the ground and in the air. All of our aircraft have been updated with ADSB out & in (wherever possible). This is a great tool to aid in situational awareness. However, it does not substitute for good visual scanning and sufficient radio calls. Both flight instructors and students are responsible to stay vigilant with visual scanning and proper radio calls. This is especially critical in the airport environment and when flying through busy transition routes.

On the note of new aircraft...one of the brand-new aircraft was damaged in a hangar rash incident within a week of its arrival. Hangar rash is completely preventable. Please slow down, grab someone else to watch while you and your instructor push in and out. This doesn't have to be another instructor. It can be someone from maintenance, records, admin, or even a fueler from Sphere One if no one else is around.

### Maintenance Team

The SUU Maintenance team would like to wish you a great early Springtime! Thank you for choosing our University. We are happy to maintain our fleet of beautiful aircraft. Please do your part to help our instructors keep them clean and in good condition. Go Team!

### Advising

My new office is in Hangar 3 Room 108. The current scheduled drop in hour is Thursdays from 8:00 am until 9:00 am. Please use the SUULINK in your SUU portal to schedule appointments. As a reminder, Summer registration started February 11 for seniors and Fall registration begins March 31. Please remember, the Flight program is designed for attending six consecutive semesters.

### Veterans Affairs

Reminder that if you are a NEW SPRING student, you must complete online orientation or you will not be able to certify for the Summer semester. This applies to ALL new students.

Veteran students graduating in Spring 2020, stop by the VRSC to pick up your graduation cord.

There is an amazing scholarship opportunity for Marine and FMF Navy Veterans! Visit VRSC to get an application.

### Academics

The new BS Degree in Cabin Crew has been approved by the Undergraduate Curriculum Committee.

Five new aviation maintenance management courses for our BS degree have also been approved by the Undergraduate Curriculum Committee.

We are beginning to work on a new BS degree in leadership and management that will not include flight or maintenance.

### Welcome to the Team!!

- Dean Englestead
- Brady Cloward
- Phillip Stewart
- Cole Cutner
- Jack Newman
- Devin Howard
- Kyle Turner
- Moises Torres
- Jesse Castens
- Tim Lehane
- Chris McBride
- Vincent Deckman
- Christain Cattell
- Wade Shepard
- Lohmeier, Colt
- McCalvy, James
- Crager, Amanda

Employees who have recently left!

### Good Luck!!

- Travis Miron
- Benjamin Schaefer
- Andrew Van Arb
- Corey Vlastiun
- Blane Eric Bergson

Rate SUU Aviation on Google and Facebook to get a car decal!

### Student Services

#### Check Your EMail!

Later this month (around the 23rd), you'll be receiving an email with our estimate of your midterm grade and an invitation to meet to discuss what you're doing well or how you need to improve. This is a great opportunity for you to get an idea of your progress and come up with a plan for the rest of the semester. See you then!

### Congrats on Successfully Completing your Checkrides:

### Maintenance Technician Degree Update

The AMT program is running and we are expecting to have a good size cohort for summer. We're traveling to meet with a possible donor this week to see about including some exciting additions to our program. We should be hearing about some grant funding within the next few weeks, and we are excited for the future growth of the program.
