SPRING 2020 SEMESTER NEWSLETTER

DEAN'S CORNER

JEAN BOREEN | DEAN OF HSS

I'm not sure that there is any way to start this message but to say that this has been a strange semester for all of us in The College of Humanities & Social Sciences at Southern Utah University. Like other universities around the country, we switched our face-to-face instruction to remote/on-line instruction and kept in touch with our students and each other through video conferences and e-mail. Our faculty and staff have been amazing in their response to this situation and have worked tirelessly to get their courses on-line, respond to student concerns, and contribute to the smooth functioning of the college.

HSS ANNOUNCES NEW BFA FILMMAKING DEGREE

We are pleased to announce a Bachelors of Fine Arts (BFA) in Filmmaking as our newest academic program in HSS. The Filmmaking major is a collaborative effort between HSS and the College of Performing and Visual Arts (CPVA) and was recently approved by our board of trustees. This program will allow students to understand all aspects of the film making process and prepare students for multiple career options in the film industry. This program was built on the strong foundation of our Film Studies minor and many programs within CPVA. Multiple

faculty and deans from across our two colleges worked tirelessly to develop a strong curriculum and a practical path to graduation. The pathway to graduation will afford students many hands-on learning experiences that will allow them to develop and hone their skills as filmmakers while still receiving traditional aspects of becoming educated. Our BFA in Filmmaking is currently in the process of review for NASAD Accreditation and we are positioned to welcome our first students to the major in during the Fall 2021 semester. More information will be available soon on our HSS website.

WELCOMING THE NEW HSS ADVISORY BOARD

We would like to welcome our nine new members of the College of Humanities and Social Sciences advisory board. The advisory board consists of valuable members with a background in HSS that provided strategic advice to the college. We would like to spotlight the first four of them in this newsletter and the next five in the following.

CRYSTAL ROCKWOOD

Crystal Rockwood was born in Long Beach, California, and moved to Cedar with her husband, Richard, in September 2018. As a college student, she majored in journalism at Cal State University, Los Angeles, but quickly discovered that reporting was not her calling during an assignment in which she had to cover a campus incident involving two bitter factions. Instead, advocating people's stories, correcting false perceptions, and leveling the playing field for those who were being out-shouted and out-spent excited her and still does today. Her company, Rockwood Communications Counsel, helps clients with PR challenges and opportunities. She handles crisis management situations, which includes situations that are complex, high-stakes, or simply awkward and embarrassing.

Since arriving in Cedar City, she has met many fascinating people at SUU whose stories are continually enriching her life. She looks forward to making many more connections and memories during her time here. In her spare time, she enjoys exploring bakeries in any city or country that she finds herself in. She also enjoys having people over at her house to laugh and eat together. She says, "[It] fills me with incredible joy, it is such an honor." Crystal hopes that all HSS students will focus on fostering curiosity and grace in all that they do, promising that, "with ample supply, you will be afforded more opportunities imaginable."

TREION MULLER

Treion J. Muller was born in Johannesburg, South Africa, and later in his life moved to Farmington, Utah. He is married to his wife, Soni, who is a professional singer with the women's trio Mercy River. He received his undergraduate degree from SUU, and has fond memories of his time there. He particularly enjoyed the smaller class sizes that allowed him to get to know so many fellow students and many of the professors as well. He went on to receive his Master degree from USU. Treion currently works in product management and innovations, and it is his lifelong dream to provide resources to help troubled and impoverished youth find purpose and meaning in their lives.

Treion believes that success in life is determined by both doing what you love, and loving others. In his own words, "It's all about being human, isn't it? Being good social citizens... Find the sweet spot between what you love to do and what loves you back - something that renews you, energizes you, and allows you to give back." Treion has spent much of his professional life giving back, and continues to live by his philosophy of seizing the moment as he continues to contribute and give back to his community around him.

GWEN KNIGHT

Gwen Knight was born in Indiana, and moved to Salt Lake City when she was in eighth grade. After graduating from Highland High School and marrying her husband, she and her family moved to Cedar City, where they raised their family. Many of her children graduated from SUU, and it was their love of SUU that inspired her to go back to school. During her time at SUU, Gwen immersed herself in campus life by joining organizations such as Psi Chi, Psychology Club, and Pi Alpha Alpha, even though she was a non traditional student. Gwen graduated from SUU with her Bachelor's degree in Psychology in 2012 (the same year as her son Ryan!) and received top honors, including being named SUU's Valedictorian. She went on to receive her Master of Public Administration in 2016. Gwen's professional career has been spent in Public Administration. After working for 25 years for the Utah State Courts in several capacities, she then became the Executive Director of the non-profit "Prevent Child Abuse Utah." Today, she currently works for a public charter school.

Of her time at SUU, Gwen says, "The skills and tools gained in my education provided me with a very enjoyable and successful career in public service! I value my education and love that I have become a lifelong learner. It also provided me with a desire to serve my community and I have adapted what I have learned as I served on several coalitions and committees, most of which have benefited child welfare. My education has helped me to become a better collaborator, communicator, parent, grandparent and mentor." Gwen continues to build on her education every day, and plans to continue learning about and trying new things as she continues her constant quest to be a life-long learner.

ISAAC HOLYOAK

Isaac Holyoak was born in Monticello, Utah, and then moved to Murray, Utah. Currently, he and his wife of five years live in a century-old bungalow just south of Liberty Park in Salt Lake City with their two dogs: an aging Boston Terrier and an energetic German Pointer. Isaac graduated from SUU in 2008 with a Bachelor of Science in Communications and went on to receive his Master of Arts in Rhetoric from Purdue University in 2010. He then started a Ph. D. program at Texas A&M, but eventually decided not to pursue a doctorate degree (which he jokes that it makes him a college drop out). Isaac currently works at the intersection of executive communications, operations, and policy at the University of Utah health system. He also teaches workshops on communication, leadership, and storytelling, and edits and writes for a health care publication called "Accelerate."

Isaac says that he continues to benefit from the education he received as an HSS major at SUU even today, particularly when it comes to knowing how to write well. Additionally, the connections he made as a student continue to have a huge impact on his life. "My best friends to this day," he says, "are people I met at SUU... At SUU I learned who I am. I came out, changed my faith views, embraced a wide range of literature, worked in my chosen field, and was supported the entire time by my friends and most of my professors. Cedar City remains my dream town!" In his spare time, Isaac is an avid gardener, and he actively encourages SUU students today to broaden their horizons as they further their education, just as he continues to do in his professional and personal life.

2020 HSS VALEDICTORIAN

TAYLEE CICCONE

Meet Taylor Ciccone, the 2019-2020 HSS Valedictorian. Taylor is from Clearfield, Utah, and completed a double major in Psychology and Criminal Justice. She is a member of the Student Programming Board, Criminal Justice Club, and Psi Chi and lives life to its fullest with her philosophy: "Always forward, never backward."

Taylor says that she found success at SUU by not being afraid to ask for help, say no, and challenge herself, and finding joy in the little things in life. In her spare time, she enjoys puzzles, mystery books, hiking, game nights with her friends, and spending time with her girlfriend. And she can also move her ears without touching them!

Taylor is excited to see where life takes her after SUU. But SUU has truly become a home for her, and a part of her will always remain here.

TELTON HALL: ALUMNI FEATURE

2006 GRADUATE | ENGLISH EDUC

Telton Hall was raised on a small ranch in Virgin, Utah and before he attended SUU, spent some time in Wyoming and California. It was "the allure of mountain biking and playing T-bird basketball" that brought him here to Southern Utah University. Telton says that he had a great experience at SUU and feels a lot of gratitude toward the faculty and staff that made that happen.

Telton majored in English Education at SUU and now is the owner of Advanced Financial Planning, LLC with offices based in Cedar City and St. George. Many of the company's clientele are actually faculty and staff from SUU. Telton says that this makes his career more enjoyable because he gets to maintain close relationships with some of his mentors at SUU. Telton got licensed and started selling retirement investments while still attending SUU for his English Education degree. He also loves to be involved with scholarships, mentorships, and the employment of SUU graduates.

In 2008, Telton gained an appreciation and knowledge of how his HSS degree set him up for

success in his career. After being impressed by a presentation on investment strategies during the 2008 economic collapse, Telton found out that the presenter had majored in English. Because of his background in the humanities and social sciences, he was able to give a presentation that connected with more people. Reflecting on the experience, Telton said, "I realized there were certain real-world benefits that grew organically out of my experience in a Humanities and Social Sciences focused classroom. There is something universal about the education I received."

When asked if he had a piece of advice that he remembers often, Telton quoted one of his professors from SUU. "Your integrity comes through in your writing. That's what we need. You've done the work to understand. Now present it in your voice. When it's done right, the reader will know that you know... And together we'll know the right course forward." Not only does Telton remember this advice, he uses it in his everyday life.

HSS DEPARTMENT GRADUATE AWARDS

As part of graduation, each department in the College of Humanities and Social Sciences selects students to receive an award and be recognized for how they excelled during their time in the program.
