Meet the Summer 2022 HP Level 1 Cohort

Hey everybody! We are the newest Level 1 nursing students here at SUU. There are 19 of us and we have been kept busy but are enjoying the road as we go. We are grateful to be getting our education and are thankful to our professors in the program for making it possible for us to learn. We have had many valuable experiences during clinical time and are thankful for Saint George Regional Hospital, Stonehenge of Cedar City, Cedar Health and Rehab, and Cedar City Hospital for allowing us to enter their facilities. We truly feel we have made an impact in our community. Our class has also really enjoyed our Health Assessment class and the chance we have been given to laugh and apply that knowledge in a clinical setting. There is a lot of valuable information that we have learned, and we appreciate Dr. Layton and all his hard work. We look forward to continuing our education in the following semesters.

-Mikayla Mineer HP Cohort President

Meet the Summer 2022 HP Level 4 Cohort

Our time as the “Most Loved HP Cohort” has come to an end. Since the beginning of the nursing program, our cohort meshed, bonded, and became close friends. This cohort has many experienced and skilled health care providers that collaborated to help each other to be successful throughout the nursing program. Our focus was to give back to the community through the SUU Student Nursing Association and provide a legacy of leadership, mentoring, and service with incoming nursing students. Many HP Level 4’s have already accepted nursing positions ranging from outpatient services to high acuity ED and ICU. We are grateful to our SUU nursing professors and staff for their dedication and

support to prepare us for our future careers in nursing.

Thank you to each HP Level 4 nursing student for your contributions and kindness throughout our nursing school journey.

-Zackery Hansen, HP Cohort Vice President, SNA Director of Outreach & Class Shifu

SUU Student Nurses Association

During the summer, the Student Nurses Association continues to run and perform acts of service throughout the community. Pictured below are students at our roadside clean-up service project. Sometimes it pays to serve the community.

SUU's Nursing Program Partnering with CAPS

CAPS stands for Counseling And Psychological Services. Over the last few years, the nursing program has worked with CAPS to help students adapt to the stresses of the program. This Semester, Britney Johnson and Don Pelicano led the support group sessions. "Nursing CAPS is a mental health support group that allows students to vent and release anxieties that occur during nursing school there's a lot. As the Nursing CAPS leaders this semester, we opened discussions focused on how to help our level one student's through their first semester in SUU's Nursing Program."

-Britney Johnson
