

**Purpose:** To establish general operating hours for all buildings at the University.

**Procedure:** The following is a list of building schedules that will be used to open and secure buildings on campus. Buildings will be opened by Facilities Management staff and secured by the University Police Department and the University Access Control System at the listed times. All non-authorized occupants will be required to leave the building after hours.

**Exceptions:** Events that have been scheduled by Guest Services and academic courses scheduled through the Registrar's office. If no scheduled events are listed, then the building will be secured at the listed time.

All buildings will remain secured on Holidays unless proper scheduling is completed either with Guest Services or the Registrar's Office. Anyone entering a building is responsible for re-securing the building when leaving. **Faculty or staff remaining in a building after it has been locked is responsible for the security of the building. Building and program security are the responsibility of the individual hosting the function once the building has been unlocked.**
