

CARRIE LUKE

SCHOOL OF BUSINESS SENATOR

Hello friends, my name is Carrie Luke, and I am excited to be running for the School of Business Senator. I am currently a junior majoring in both marketing and management with a minor in communications. Like many of you, I have enjoyed my time at SUU and have found a place in the School of Business. I have spent this last year working with the STIL marketing team and participating in a variety of campus and business club events. I have gained valuable experience and know I would be a great representative for the Business School in the Student Senate.

I care about SUU and want business students to have every opportunity to succeed. I am an advocate for student empowerment and want students to gain confidence in their abilities as they are preparing to enter the dynamic business world. I am well organized and ready to work with other student leaders, SUU services, and the Student Senate as a liaison between the students and the university administration. Part of my plan as the Business Senator would be to:

- **Cater professional development towards student interests**
 - I want to provide students with practical opportunities to apply the skills they are learning. This year I participated in the Women in Business Red Riveter Competition, the Student Management Association employer trip to Las Vegas, and many other professional development activities. Having relevant and engaging activities can help students stay connected and build confidence in their abilities.
- **Create more student involvement opportunities**
 - I look to incorporate more involvement and leadership opportunities at a variety of levels. I understand not all students have the time for a year/semester long leadership role and hope to implement activities where they can step up. This is not only good for resumes and experience but would also help foster inclusivity in the business building.
- **Connect students with the workforce**
 - I plan to help students build bridges and connect with professionals in their desired field of work. I have attended SUU career fairs and networking events and know that not all business majors are well represented. Every business student should have the opportunity to connect with employers and expand their network in a comfortable environment.

I am ready to represent all business students as your next Senator. I will work to make sure students are heard both in the School of Business and in campus wide decisions. Please reach out and let me know your thoughts, ideas, and concerns - carrielukey@suu.edu
